## **Natural Disasters**

Dear Lemon Grove School District Community,

Natural disasters are striking all parts of our nation and neighboring Mexico. We are all connected to the people who live in these regions, and so we know that while these tragedies are not in our neighborhood, our concern is great.

Please know our heart goes out to these individuals and their families and friends touched by these natural disasters. There are many organizations and agencies with helpful [information](#) about helping children and families cope with natural disasters and other crises.

This is also a time for us to ensure the solidity of our Emergency Preparedness Procedures in Lemon Grove School District. The safety of our students and staff is a top priority. Please know we are committed to ensuring safe and secure sites for teaching and learning in our district.

**Yours in Education,**

**Dr. Kimberly Berman**

**Superintendent**
