

# Davidson County Schools

## Strategic Plan 2018-2022

We invite you to join us as we engage in planning for our school district's instructional direction over the next four years. The district strategic plan will be built upon the concepts of *rigor, relevance,* and *relationships* in order to ensure our students are *ready* for their futures. As educators, we fully understand that community members can assist us in integrating these principles into the daily work of our schools.

*Please join us for one of our host meetings in the communities we proudly serve-- Thomasville, Denton, or Lexington!*

*Your future. Our focus.*
