To Whom it May Concern:

Phil Lesh, founding member of The Grateful Dead, exclaims, “So what it boils down to, in my humble opinion, is that we need to support the arts in schools, and at every other level in the education of children.” As Performing Arts Boosters, we have witnessed firsthand the benefits of the Arts in our children’s lives: it helps them learn new perspectives, gain confidence, and find their voices as they venture to the next stage of their lives. Thus we are soliciting for donations from local businesses, organizations, or individuals to help cover costs for our Booster organization, and we would greatly appreciate your support!

Funds will be used to purchase much-needed equipment for our upcoming production of *Oklahoma*, as well as future productions. We are hoping to rent a sound system and lighting, and buy microphones, tools for our stage crew, a new conductor’s chair for our pit orchestra director, and supplies for costumes and props.
