

Ms. Callaghan AP Biology Summer Assignment Instructions

I will use Google Classroom to post assignments and communicate with you throughout this summer and next school year. You can access Google Classroom using my instructions below:

1. Go on the internet and log into google using your SCHOOL EMAIL -

s(student ID #) @ belleville.k12.nj.us

You **HAVE TO** use your school email, no personal emails.

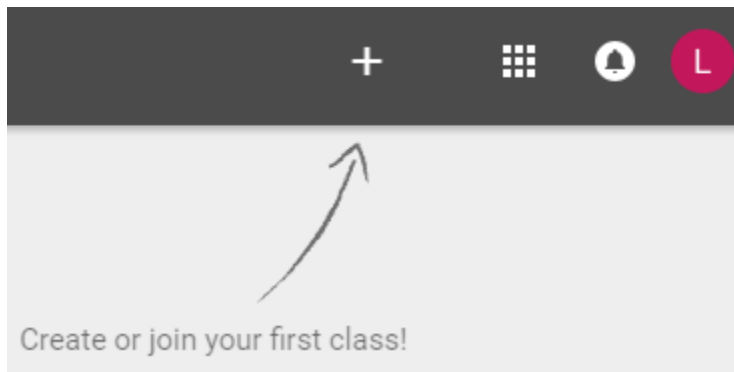

You must write the **WHOLE EMAIL**, not just the first part.

Your password will be **PASSWORD** if you have never used your school email before. If you have, it will probably be what you have used to log into the chrome books at school.

2. Click this icon  on the top right of your screen.

3. Click **Classroom**, you may need to scroll down to see it.
4. Click continue, then click I am a student.
5. Click the plus sign on the top right to join a new class and then enter this class code **2pm7aq**

6. There are 3 tabs at the top of the AP Biology class page. The **STREAM** tab is where you will find all you summer assignments and information.
The **ABOUT** tab is where you will see the link to the PDF for the book. It is also on the stream tab in my welcome statement.
7. If you have any questions or issues accessing Google Classroom or with the assignments, please email me - lauren.callaghan@belleville.k12.nj.us
I check my email often and will respond within a day or two.
