School:	Teacher:		Grade level:
Parent/Guardian name(s):			
Address/City/State/ZIP:			
Parent email:		Phone number(s):	
Date received (office use only):			

Process for Appeal

Policy 2190AP – Parents/legal guardians have the right to appeal the Multidisciplinary Selection Committee's decision [for placement in the Able Learner Program]. Individuals appealing the selection committee's decision must submit a completed appeals form or letter requesting review of selection/placement decision. The written request must include reasons for the appeal and, to support reconsideration, provide additional evidence of significantly advanced cognitive or academic levels and/or outstanding intellectual, academic, or creative abilities.

The appeal request and supporting evidence must be submitted to the Director of Curriculum and Professional Development, 19307 E. Cataldo Ave., Spokane Valley, WA 99016 within ten (10) school days of the Multidisciplinary Selection Committee's decision notification.

The district's Multidisciplinary Selection Committee will review the student's file, assessment profile data, and additional evidence provided in the request for appeal.

The decision of the Multidisciplinary Selection Committee may include:

- Upholding the original decision of the Multidisciplinary Selection Committee;
- Reversing the decision of the Multidisciplinary Selection Committee

A decision will be made by the Appeals Committee within ten (10) school days after receipt of written request for reconsideration.

The parent/legal guardian will be notified of the decision in writing. The decision of the Appeals Committee is final.

Describe why you believe the decision of the Multidisciplinary Selection Committee does not accurately represent your child's abilities. (Attach additional documents if available.)

What specific supporting evidence are you including for consideration? Remember, you must include "additional evidence of significantly advance cognitive or academic levels and/or outstanding intellectual, academic, or creative abilities." (Attach additional evidence, test results, etc.)
