Colorado Early Colleges Fort Collins
Course Catalog | Fall 2020 - Spring 2021
Course Offerings | Fall 2020

CECFC offers a variety of courses designed to meet our students’ needs. All courses are semester-long and offered on-campus between the hours of 7:50 a.m. and 3:30 p.m. Although we work hard to finalize the schedule in a timely manner, course offerings and times are subject to change. Courses designated with no numbers or numbers to 99 are college prep courses; courses designated with numbers above 100 are college courses.

ENGLISH
COMP/LIT 060—Fundamental English
COMP/LIT 090—Foundational College Prep English 1
COMP/LIT 090.2—Foundational College Prep English 2
ENG 090.2—Content Lab
COMP/LIT 095—Comprehensive College Prep English
COMP/LIT 099—Cumulative College Prep English
LIT 115—Introduction to Literature
ENG 121—English Composition I
ENG 121—Writing Lab
ENG 122—English Composition II
COM 115—Public Speaking
COM 125—Interpersonal Communication

*Note about offerings:
Not every class is offered every semester. Courses described below are for reference only and may not be currently available. Semester course offerings are subject to change based on student interest and instructor availability. Please refer to the above list for courses offered this semester and/or talk to your advisor with any concerns. CECFC is committed to providing course variety each semester.

*College vs. College Prep credits:
1.0 credit college course= 0.5 college prep level credit
2.0 credit college course= 0.5 college prep level credit
3.0 credit college course= 1.0 college prep level credit
4.0 credit college course= 1.5 college prep level credits
5.0 credit college course= 2.0 college prep level credits

- Total Credits: 13 semester credits
- Remaining Credits: 3 semester credits
## AIMS Associates of Arts: Degree Requirements

### Written Communication
- 3 semester credits
  - Select three courses, two of which must be ENG 121 + ENG 122
  - OR
  - Add 1 course from below:
    - ARA 101 (3), 111 (5), 112 (5)
    - ASL 101 (3), 102 (3), 111 (5), 112 (5)
    - CHI 101 (3), 111 (5), 112 (5)
    - CIS 118 (3)
    - COM 115 (3), 125 (3)
    - FRE 101 (3), 102 (3), 111 (5), 112 (5)
    - GER 101 (3), 102 (3), 111 (5), 112 (5)
    - ITA 101 (3), 102 (3), 111 (5), 112 (5)
    - JPN 101 (3), 102 (3), 111 (5), 112 (5)
    - RUS 101 (3), 111 (5), 112 (5)
    - SPA 101 (3), 102 (3), 111 (5), 112 (5)
    - SWE 101 (3)

### Mathematics
- (3 semester credits) Take one course. Credits over 3 will be applied to the elective category.
  - MAT 120 (4)
  - MAT 135 (3)
  - MAT 215 (4)
  - MAT 121 (4)
  - MAT 201 (5)
  - MAT 265 (3)
  - MAT 122 (3)
  - MAT 202 (5)
  - MAT 125 (4)
  - MAT 203 (5)

### Approved Additional Electives
- (23 semester credits)
- Additional 23 credits of electives selected from the Approved Electives List (see reverse side)

### Remaining AA Requirements
- Total Credits:
  - (7 semester credits) Take two courses. Credits over 7 will be applied to electives category.
  - AN 111 (4)
  - BIO 204 (4)
  - ENV 101 (4)
  - PHY 105 (4)
  - AST 101 (4)
  - BIO 208 (5)
  - GEO 111 (4)
  - PHY 107 (4)
  - BIO 105 (4)
  - BIO 221 (5)
  - GEO 112 (4)
  - PHY 111 (5)
  - BIO 111 (5)
  - CHE 101 (5)
  - GEO 113 (4)
  - PHY 112 (5)
  - BIO 112 (5)
  - CHE 102 (5)
  - GEO 114 (4)
  - PHY 112 (5)
  - BIO 201 (4)
  - CHE 111 (5)
  - GEO 135 (4)
  - PHY 211 (5)
  - BIO 202 (4)
  - CHE 112 (5)
  - MET 150 (4)
  - SCI 105 (4)

### Natural & Physical Science
- (7 semester credits)
  - Take any two courses in the Natural & Physical Science area.
  - ANT 111 (4)
  - BIO 204 (4)
  - ENV 101 (4)
  - PHY 105 (4)
  - AST 101 (4)
  - BIO 208 (5)
  - GEO 111 (4)
  - PHY 107 (4)
  - BIO 105 (4)
  - BIO 221 (5)
  - GEO 112 (4)
  - PHY 111 (5)
  - BIO 111 (5)
  - CHE 101 (5)
  - GEO 113 (4)
  - PHY 112 (5)
  - BIO 112 (5)
  - CHE 102 (5)
  - GEO 114 (4)
  - PHY 112 (5)

### Arts & Humanities
- (9 semester credits)
  - Take any two courses from two different categories:
    - Arts Literature Ways of Thinking Foreign Languages
      - ART 101 (3)
      - HUM 115 (3)
      - PHI 111 (3)
      - FRE 211 (3)
      - ART 111 (3)
      - HUM 121 (3)
      - PHI 112 (3)
      - FRE 212 (3)
      - ART 112 (3)
      - HUM 122 (3)
      - PHI 113 (3)
      - GER 211 (3)
      - ART 207 (3)
      - HUM 123 (3)
      - PHI 114 (3)
      - GER 221 (3)
      - MUS 120 (3)
      - LIT 115 (3)
      - PHI 214 (3)
      - ITA 211 (3)
      - MUS 121 (3)
      - LIT 201 (3)
      - PHI 218 (3)
      - ITA 212 (3)
      - MUS 122 (3)
      - LIT 202 (3)
      - JPN 211 (3)
      - MUS 123 (3)
      - LIT 205 (3)
      - RUS 211 (3)
      - MUS 125 (3)
      - LIT 211 (3)
      - RUS 212 (3)
      - THE 105 (3)
      - LIT 212 (3)
      - SPA 211 (3)
      - THE 211 (3)
      - LIT 221 (3)
      - SPA 212 (3)
      - THE 212 (3)
      - LIT 222 (3)
      - LIT 225 (3)

### Social & Behavioral Sciences
- (9 semester credits)
  - Take three courses, one of which must be History:
    - Economic & Political Systems Geography Human Behavior, Culture, or Social Frameworks History
      - ECO 101 (3)
      - GEO 105 (3)
      - ANT 101 (3)
      - CRJ 110 (3)
      - PSY 249 (3)
      - HIS 101 (3)
      - ECO 201 (3)
      - GEO 106 (3)
      - ANT 102 (3)
      - ETH 200 (3)
      - PSY 265 (3)
      - HIS 102 (3)
      - ECO 202 (3)
      - ANT 103 (3)
      - JOU 105 (3)
      - SOC 101 (3)
      - HIS 111 (3)
      - ECO 211 (3)
      - ANT 104 (3)
      - PSY 101 (3)
      - SOC 102 (3)
      - HIS 112 (3)
      - ECO 245 (3)
      - ANT 107 (3)
      - PSY 102 (3)
      - SOC 205 (3)
      - HIS 121 (3)
      - POS 105 (3)
      - ANT 108 (3)
      - PSY 205 (3)
      - SOC 207 (3)
      - HIS 122 (3)
      - POS 111 (3)
      - ANT 201 (3)
      - PSY 217 (3)
      - SOC 215 (3)
      - HIS 208 (3)
      - POS 125 (3)
      - ANT 215 (3)
      - PSY 226 (3)
      - SOC 216 (3)
      - HIS 225 (3)
      - POS 205 (3)
      - ANT 225 (3)
      - PSY 227 (3)
      - SOC 218 (3)
      - HIS 235 (3)
      - POS 215 (3)
      - ANT 250 (3)
      - PSY 235 (3)
      - SOC 220 (3)
      - HIS 236 (3)
      - POS 225 (3)
      - COM 220 (3)
      - PSY 238 (3)
      - SOC 231 (3)
      - HIS 244 (3)
      - SOC 237 (3)
      - HIS 247 (3)
      - WST 200 (3)
      - HIS 250 (3)
      - WST 225 (3)
      - HIS 251 (3)
      - WST 240 (3)
      - WST 249 (3)
### AIMS Associates of Science: Degree Requirements

#### Written Communication
(6 semester credits) Take both courses:
- ENG 121 (3)
- ENG 122 (3)

#### Mathematics
(3 semester credits) Take One Course. Credits over 3 will be applied to the elective category.
- MAT 121 (4)
- MAT 202 (5)
- MAT 122 (3)
- MAT 203 (4)
- MAT 125 (4)
- MAT 215 (4)
- MAT 135 (3)
- MAT 265 (3)
- MAT 201 (5)

#### Natural & Physical Science
(8 semester credits) Take two lab science courses. Can take two sequence courses. Credits over 8 will be applied to electives category.

#### Arts & Humanities
(6 semester credits) Take any two courses:
- ART 110 (3)
- HUM 115 (3)
- PHI 111 (3)
- FRE 211 (3)
- ART 111 (3)
- HUM 121 (3)
- PHI 112 (3)
- FRE 212 (3)
- ART 112 (3)
- HUM 122 (3)
- PHI 113 (3)
- GER 211 (3)
- ART 207 (3)
- HUM 123 (3)
- PHI 114 (3)
- GER 221 (3)
- MUS 120 (3)
- LIT 115 (3)
- PHI 214 (3)
- ITA 211 (3)
- MUS 121 (3)
- LIT 201 (3)
- PHI 218 (3)
- ITA 212 (3)
- MUS 122 (3)
- LIT 202 (3)
- JPN 211 (3)
- MUS 123 (3)
- LIT 205 (3)
- RUS 211 (3)
- MUS 125 (3)
- LIT 211 (3)
- RUS 212 (3)
- THE 105 (3)
- LIT 212 (3)
- SPA 211 (3)
- THE 211 (3)
- LIT 221 (3)
- SPA 212 (3)
- THE 212 (3)
- LIT 222 (3)
- LIT 225 (3)

#### Social & Behavioral Sciences
(6 semester credits) Take any two courses from any category:

#### Economic & Political Systems
- ECO 101 (3)
- GEO 105 (3)
- ANT 101 (3)
- CRJ 101 (3)
- PSY 249 (3)
- SOC 237 (3)
- ECO 201 (3)
- GEO 106 (3)
- ANT 102 (1)
- ETH 200 (3)
- PSY 265 (3)
- WST 200 (3)
- ECO 202 (3)
- ANT 103 (1)
- JOU 105 (3)
- SOC 101 (3)
- WST 225 (3)
- ECO 211 (3)
- ANT 104 (1)
- PSY 101 (3)
- SOC 102 (3)
- WST 240 (3)
- ECO 245 (3)
- ANT 107 (3)
- PSY 102 (3)
- SOC 205 (3)
- WST 249 (3)
- POS 105 (3)
- ANT 108 (3)
- PSY 205 (3)
- SOC 207 (3)
- POS 111 (3)
- ANT 201 (3)
- PSY 217 (3)
- SOC 215 (3)
- POS 125 (3)
- ANT 215 (3)
- PSY 226 (3)
- SOC 216 (3)
- POS 205 (3)
- ANT 225 (3)
- PSY 227 (3)
- SOC 218 (3)
- POS 215 (3)
- ANT 250 (3)
- PSY 235 (3)
- SOC 220 (3)
- POS 225 (3)
- COM 220 (3)
- PSY 238 (3)
- SOC 231 (3)

#### History
(3 semester credits) Take one course:
- HIS 101 (3)
- HIS 121 (3)
- HIS 122 (3)
- HIS 203 (3)
- HIS 205 (3)
- HIS 207 (3)
- HIS 102 (3)
- HIS 208 (3)
- HIS 215 (3)
- HIS 218 (3)
- HIS 225 (3)
- HIS 235 (3)
- HIS 111 (3)
- HIS 236 (3)
- HIS 243 (3)
- HIS 244 (3)
- HIS 245 (3)
- HIS 246 (3)
- HIS 112 (3)
- HIS 247 (3)
- HIS 249 (3)
- HIS 250 (3)
- HIS 251 (3)
- HIS 255 (3)
- HIS 259 (3)
- HIS 260 (3)

#### Science & Math Electives
(28 semester credits)
Additional electives credits must be selected from the approved math and science electives list below.

#### Total Credits:

#### Remaining Credits:
**English Course Progression**

**ALL STUDENTS**

---

**Fundamentals:**
Focus on basics to prepare for college prep level work

Lit & Comp 060

Lit & Comp 060.2

Recommended option for students needing more practice with the 060 level

---

**Foundational:**
Focus on the first half of college prep skills sets

Lit & Comp 090

Lit & Comp 090.2

Lit & Comp 090.2 +Lab

Recommended option for students needing more practice with the 090 level

---

**DEGREE TRACK**

Lit & Comp 099

Lit & Comp 095

Comprehensive:
Touches on all college prep level skill sets

ENG 121

ENG 122

Cumulative:
Focus on refining the second half of college prep skills.

---

**STEM CERTIFICATE TRACK**

Technical Lit & Comp 095

Lit & Comp 099

Comprehensive:
Touches on all college prep level skill sets

Cumulative:
Focus on refining the second half of college prep skills.

ENG 131

---

*This flowchart is a guide to placement; however, each student is considered individually and holistically when making placement decisions (test scores, academic performance, maturity, responsibility, grades, etc)

*NextGen= 245+
*A or B in 095 or C or above in 099
*Teacher recommendation

---

*NextGen= 245+
*A or B in 095 or C or above in 099
*Teacher recommendation
ENGLISH

Literature and Composition 060—Fundamentals
**Description:** This two-hour course focuses on developing a strong foundation in both reading and writing related skills in addition to academic skills such as organization and holding oneself accountable for quality and timely work. The focus will be on communicating in a clear, structured way both verbally and through written work as well as understanding communication from others. This communication will be practiced in many different modes focusing on the various ways reading, writing, listening, and speaking occur in our world.
**Prerequisites:** Placement based on NextGen Reading and Writing ACCUPLACER score and/or teacher recommendation.
**Designation:** College Prep
**Credits:** 0.5

Literature and Composition 060.2—Fundamentals Semester 2
**Description:** This course is a continuation of the 060 class with a focus on fundamental skills. This course is designed to support students in a way that sets them up for success in college prep courses at CEC. 060.2 emphasizes reading strategies for both fiction and nonfiction texts, writing and communicating clearly for a variety of audiences and purposes, and overall academic skills like organization, accountability, and time management.
**Prerequisites:** Composition and Literature 060; teacher recommendation
**Designation:** College Prep
**Credits:** 0.5

Literature and Composition 090—Foundational College Prep English 1
**Description:** This course provides an intensive introduction to college prep English work by establishing a foundation of skills needed for all reading and writing at CEC. Students will practice analytical reading skills in a variety of genres including short stories, poems, novels, and nonfiction. The focus will be on close reading, where students use specific passages from the text to develop and support their interpretations of literary works as well as recognize how texts function as a whole and the conventions of using communication in different settings. Students will focus on the devices used to achieve their own writing purposes and appeal to their audiences by composing various types of essays and learning the conventions and expectations of the typical college essay. Students will be challenged to grow not only in their reading and composition capabilities but also as students and individuals pursuing their individual pathways in life through various reading, writing, and discussion activities.
**Prerequisites:** Placement based on NextGen Reading and Writing ACCUPLACER score OR successful completion of 060/060.2.
**Designation:** College Prep
**Credits:** 1.0

Literature and Composition 090.2—Foundational College Prep English 2
**Description:** This course is a continuation of 090 courses. The curriculum will focus on different themes and assignments but continue to improve upon the same skill set as 090. This class is designed to assist students in developing the foundation of writing, reading, and communicating skills. Students will be asked to critically read, analyze, and evaluate various fiction and nonfiction texts. They will also practice writing skills including a focus on the sentence level as well as recognizing elements of effective writing. Students will focus on themselves as individuals in the world and as developing readers and writers.
**Prerequisites:** C or below in Composition 090 and Literature 090 or by teacher/advisor recommendation
**Designation:** College Prep
**Credits:** 1.0
Literature and Composition 090.2—Content Lab
Description: This course is a required supplement to 090.2 to provide individualized support
Prerequisites: Required for students enrolled in COMP/LIT 090.2
Designation: College Prep
Credits: 0.25

Literature and Composition 095—Comprehensive College Prep Composition
Description: This course provides a comprehensive overview of all college prep English skill sets. Students will be challenged to analyze and evaluate texts at a more advanced level in order to prepare for college-level reading tasks and to articulate, in both speech and writing, interpretations of poems, short stories, novels, and plays. They will also practice writing skills including a focus on the sentence level as well as making intentional decisions to compose various genres of writing effectively. Students will focus on conducting research and thinking critically about how to gather, process, and use information to become thoughtful productive citizens in the modern world.
Prerequisites: COMP and LIT 090
Designation: College Prep
Credits: 1.0

Literature and Composition 099—Cumulative College Prep English
Description: This course is a culmination of all college prep skill sets and is designed to assist students in becoming independently capable of college communication tasks and critical thinking. Students will be asked to refine their critical reading, analysis, and evaluation abilities with various fiction and nonfiction texts. They will also perfect writing skills including a focus on the sentence level as well as making intentional decisions to compose various genres of writing effectively. Students will focus their semester around a passion project which will serve as a capstone at the conclusion of college prep English coursework.
Prerequisites: COMP and LIT 095; teacher recommendation
Designation: College Prep
Credits: 1.0

LIT 115—Introduction to Literature
Description: The purpose of Literature 115 is to provide students with a general overview of literature. Lit 115 asks students to read and analyze at a level that is consistent with deeper understanding of the material and its broader purpose in society. It also asks students to articulate how such literature is created and why an author would choose specific devices to create meaningful effects for his audience. To gain this understanding over a broad spectrum, students will be asked to read multiple genres including fiction, drama, and poetry. Overall, students should use this class as an opportunity not just to learn about literature but to see how literature applies to society at large and why literature can serve such an important role in the general fabric of what a society becomes.
Prerequisites: LIT 090; ACCUPLACER
Designation: Front Range Community College
Credits: 3.0

ENG 121—English Composition I
Description: Emphasizes the planning, writing, and revising of composition, including the development of critical and logical thinking skills. This course includes a wide variety of compositions that stress analytical, evaluative, and persuasive/argumentative writing.
Prerequisites: COMP 090; ACCUPLACER
Designation: Front Range Community College
Credits: 3.0
ENG 121—Writer’s Lab
**Description:** This course provides extra support to help students master content in ENG 121.
**Prerequisites:** Teacher/Advisor recommendation.
**Credits:** 0.25

ENG 122—English Composition II
**Description:** This course introduces the student to the fundamental features of academic inquiry, reinforces student knowledge of source material and MLA format, and assists the student in becoming a stronger and more confident writer, arguer, thinker and citizen. Students will draw on the knowledge and skills gained in ENG121 and refine the drafting and revising process, progressing along the continuum that began in 121.
**Prerequisites:** ENG 121
**Designation:** Front Range Community College
**Credits:** 3.0

ENG 221—Creative Writing
**Description:** Teaches techniques for creative writing. Explores imaginative uses of language through creative genres (fiction, poetry, and other types of creative production such as drama, screenplays, graphic narrative, or creative nonfiction) with emphasis on the student's own unique style, subject matter and needs.
**Prerequisites:** ENG 121
**Designation:** Front Range Community College
**Credits:** 3.0

COM 115—Public Speaking
**Description:** Combines the basic theories of communication with public speech performance skills. Emphasis is on speech preparation, organization, support, audience analysis, and delivery.
**Prerequisites:** ENG 121
**Designation:** Aims Community College
**Credits:** 3.0

COM 125—Interpersonal Communication
**Description:** Examines the communication involved in interpersonal relationships occurring in family, social, and career situations. Relevant concepts include self-concept, perception, listening, nonverbal communication, and conflict.
**Prerequisites:** COMP 090
**Designation:** Aims Community College
**Credits:** 3.0

Yearbook
**Description:** Our yearbook will be the product of the students who create it. The students will research yearbooks and develop a plan for the design, theme, layout, cover, copy, captions, etc. Based on their plan, the students will set goals in advance of deadlines. Throughout the semester, students will work hard to meet these goals and submit required materials by all deadlines set by the printer. Group and individual projects will help students hone their skills, resulting in a better final product. Students will have the opportunity to create a multimedia project of their choosing to demonstrate the skills they’ve learned over the semester.
**Prerequisites:** COMP 090
**Designation:** College Prep
**Credits:** 0.5
*Students who have previously taken Algebra I, Geometry, and/or Algebra II may be eligible for the next college prep level if they received an A or B in the course and score a 245+ on the NextGen AAF.*
MATH

MAT 060—Pre-Algebra

Description: This course’s content includes vocabulary, properties, operations, applications of real numbers (i.e. fractions, decimals, signed numbers), and algebraic expressions. It also covers the solution of basic first-degree equations, associated word problems, graphing on coordinate plane, and introduction of systems.
Prerequisites: Placement based on NextGen ACCUPLACER score and/or teacher recommendation.
Designation: College Prep
Credits: 0.5

MAT 060.2—Pre-Algebra Semester 2

Description: Individualized class designed to help students master concepts from 060 and introduce 090 basics if time permits.
Prerequisites: Students needing an extra semester of 060.
Designation: College Prep
Credits: 0.5

MAT 060—Content Lab

Description: This course provides extra support to help students master content.
Prerequisites: Highly recommended for students enrolled in MAT 060 or 060.2
Designation: College Prep
Credits: 0.25

MAT 090—Algebra I

Description: This course is one semester content covers the following:
- Represent linear, quadratic, and exponential relationships using graphs, tables, equations, and contexts
- Manipulate expressions to solve problems by factoring, distributing, multiplying polynomials, and expanding exponential expressions
- Analyze the slope of a line graphically, numerically, contextually, and algebraically
- Solve equations and inequalities and systems of equations and inequalities using a variety of strategies
- Represent arithmetic and geometric sequences and use exponential models to solve problems
- Investigate square root, cube root, absolute value, piecewise-defined, step, and simple inverse functions
- Use function notation
- Analyze two-variable data and explain the differences between association and causation, and interpret correlation in context.
- Compare distributions of one-variable data
Prerequisites: MAT 060
Designation: College Prep
Credits: 1.0
MAT 090A—Algebra I (Semester 1)
Description: This course spans two semesters to better grasp the Algebra I content. 090A covers the following:
- Represent linear and exponential relationships using graphs, tables, equations, and contexts
- Manipulate expressions to solve problems by factoring, distributing, multiplying polynomials, and expanding exponential expressions
- Analyze the slope of a line graphically, numerically, contextually, and algebraically
- Solve equations and systems of equations using a variety of strategies
- Represent arithmetic and geometric sequences
- Investigate square root, cube root, absolute value, piecewise-defined, step, and simple inverse functions
- Use function notation
- Analyze two-variable data and explain the differences between association and causation, and interpret correlation in context.
Prerequisites: MAT 060
Designation: College Prep
Credits: 0.5

MAT 090B—Algebra I (Semester 2)
Description: This course spans two semesters to better grasp the Algebra I content. 090B covers the following:
- Represent linear, quadratic, and exponential relationships using graphs, tables, equations, and contexts
- Manipulate expressions to solve problems by factoring, distributing, multiplying polynomials, and expanding exponential expressions
- Analyze the slope of a line graphically, numerically, contextually, and algebraically
- Solve inequalities and systems of inequalities using a variety of strategies
- Represent arithmetic and geometric sequences and use exponential models to solve problems
- Investigate square root, cube root, absolute value, piecewise-defined, step, and simple inverse functions
- Compare distributions of one-variable data
Designation: College Prep
Credits: 0.5

MAT 090—Content Lab
Description: This course provides extra support to help students master content.
Prerequisites: Recommended for students needing extra support in Algebra I
Designation: College Prep
Credits: 0.25
Geometry
Description: This course covers the following skills:
• Perform geometric transformations (reflection, rotation, translation, dilation) and find symmetry
• Determine relationships between figures (such as similarity and congruence) in terms of rigid motions and similarity transformations
• Explain properties of plane figures
• Execute proofs of geometric theorems and use coordinates to prove geometric theorems
• Model with geometry and create geometric constructions (with compass and straightedge)
• Find measurements of plane figures (such as area, perimeter, and angle measure) and three-dimensional solids (such as volume and surface area).
• Apply theorems about circles, including arc lengths and areas of sectors
• Utilize tools for analyzing and measuring right triangles, general triangles, and complex shapes (such as the Pythagorean Theorem, trigonometric ratios, and the Laws of Sines and Cosines)
• Use algebra to formulate and solve equations arising from geometric situations.
• Calculate probability (independence and conditional probability, compound events, expected value, and permutations and combinations)
Prerequisites: MAT 090
Designation: College Prep
Credits: 1.0

Geometry—Content Lab
Description: This course provides extra support to help students master content.
Prerequisites: Recommended for students needing extra support in Geometry
Designation: College Prep
Credits: 0.25

Applied Geometry
Description: This course is paired with a Geometry course to focus on learning the same concepts but in an application format. Students will spend this second hour of the course in the Innolab working on hands-on projects that directly apply the Geometry skill sets learned that week.
Designation: College Prep
Credits: 0.5

MAT 099—Algebra II
Description: This course’s content includes the vocabulary, systems, relations and functions, rational expressions and equations, inequalities, radical and complex numbers, and quadratic equations.
Prerequisites: Algebra I; Geometry
Designation: College Prep
Credits: 1.0

MAT 099—Content Lab
Description: This course provides extra support to help students master content.
Prerequisites: Recommended for students needing extra support in Algebra.
Designation: College Prep
Credits: 0.25
MAT 107—Career Mathematics
Description: Covers material designed for career technical or general studies students who need to study particular mathematical topics. Topics may include measurement, algebra, geometry, trigonometry, graphs, and/or finance. These are presented on an introductory level and the emphasis is on applications.
Prerequisites: MAT 090
Designation: Front Range Community College
Credits: 3.0

MAT 121—College Algebra
Description: Focuses on a variety of functions and the exploration of their graphs. Topics include: equations and inequalities, operations on functions, exponential and logarithmic functions, linear and non-linear systems, and an introduction to conic sections. This course provides essential skills for Science, Technology, Engineering, and Math (STEM) pathways.
Prerequisites: MAT 099 and ACCUPLACER
Designation: Front Range Community College
Credits: 4.0

MAT 135/BUS 226—Statistics
Description: Includes data presentation and summarization, introduction to probability concepts and distributions, statistical inference- estimation, hypothesis testing, comparison of populations, correlation and regression.
Prerequisites: MAT 090
Designation: Aims Community College
Credits: 3.0

MAT 125—Survey of Calculus
Description: Includes derivatives, integrals, and their applications, with attention restricted to algebraic, exponential, and logarithmic functions for business, life science and/or social science majors.
Prerequisites: MAT 121
Designation: Front Range Community College
Credits: 4.0

MAT 166—Pre-Calculus
Description: Extends algebraic concepts and explores the subject of trigonometry. Topics include: polynomial, rational, logarithmic, and exponential functions, trigonometric and inverse trigonometric functions and their graphs, trigonometric identities, and applications. This course provides essential skills for Science, Technology, Engineering, and Math (STEM) pathways.
Prerequisites: MAT 121
Designation: Front Range Community College
Credits: 5.0

MAT 201—Calculus I
Description: Introduces single variable calculus and analytic geometry. Includes limits, continuity, derivatives, and applications of derivatives as well as indefinite and definite integrals and some applications.
Prerequisites: MAT 122 OR MAT 166
Designation: Front Range Community College
Credits: 5.0
MAT 202—Calculus II

Description: Continues the study of single variable calculus which will include techniques of integration, analytic geometry, improper integrals, convergence of infinite numerical series and power series. This is a statewide Guaranteed Transfer course in the GT-MA1 category.

Prerequisites: MAT 201

Designation: Front Range Community College

Credits: 5.0
SCIENCE COURSE PROGRESSIONS

Science Pathways
- Fundamentals
- Non-Science/AA
- A.S./STEM/4 Year degree

Optional College Prep Courses
- Plant and Soil Science
- Agricultural Food and Natural Science
- Animal Science

Chem A (Concurrent Geometry or above)

Chem B (Concurrent Algebra 2 or above)

Bio B

Earth and Space Science (Typically 9th and 10th grade, or geo interest. Math 060+)

Physical Science (Concurrent Math 090)

Bio A (Concurrent Math 090 or above)

College Ready AA Track

CHEM 101
BIO 105
PHY 105

CHE 111
CHE 112
GEY 111

SCIENCE

Biology A (Macro) with Lab
Description: During this course students will practice, cooperative, inquiry and project-based learning in the study of molecular and cellular biology including biochemistry, cell structure and function, the metabolic process of respiration and photosynthesis, cellular reproduction and the basic concepts of genetics. Laboratory experiences will encourage scientific thinking by following procedures, collecting, and analyzing data.
Prerequisites: MAT 060; COMP 090
Designation: College Prep
Credits: 0.5

Biology B (Micro) with Lab
Description: Students will explore large scale systems of biology: Ecology and Evolution. Students will examine how these systems interact and the processes that shape our environments. During this course students will practice, cooperative, inquiry and project-based learning in the study of environmental and evolutionary biology. Laboratory experiences will encourage scientific thinking by collecting and analyzing data.
Prerequisites: Biology A (Macro)
Designation: College Prep
Credits: 0.5

BIO 105—General College Biology with Lab for Non-Majors
Description: Examines the basis of biology in the modern world and surveys the current knowledge and conceptual framework of the discipline. Explores biology as a science - a process of gaining new knowledge - as is the impact of biological science on society. Includes laboratory experiences. Designed for non-science majors.
Prerequisites: College Prep Biology; COMP 090
Designation: Front Range Community College
Credits: 4.0

BIO 111—General College Biology I with Lab
Description: Examines the fundamental molecular, cellular and genetic principles characterizing plants and animals. Includes cell structure and function, and the metabolic processes of respiration, and photosynthesis, as well as cell reproduction and basic concepts of heredity. The course includes laboratory experience. This is a statewide Guaranteed Transfer course in the GT-SC1 category.
Prerequisites: College Prep Biology; College Prep Chemistry; COMP 090
Designation: Front Range Community College
Credits: 5.0

BIO 112—General College Biology II with Lab
Description: Examines the fundamental principles of ecology, evolution, classification, structure, and function in plants and animals. This course includes a laboratory experience. This is a statewide Guaranteed Transfer course in the GT-SC1 category.
Prerequisites: BIO 111
Designation: Front Range Community College
Credits: 5.0
Chemistry A with Lab

Description: Chemistry A is the first semester of a year-long course in Chemistry. During this course, students will practice cooperative, inquiry and self-guided learning in the study of matter including: matter and change, measurements, atomic theory, chemical bonding, nomenclature, and chemical reactions. The course will be structured around a mix of lecture, group activities and labs. These activities will include working in small groups to provide the opportunity to reinforce the lecture material through various visual presentations and descriptions and receive help from the instructor. Laboratory experiences will encourage scientific thinking by following procedures, collecting and analyzing data and writing lab reports. Homework will emphasize the concepts being studied in class and provide opportunities for the student to use source material, including the textbook, to master the material. Successful completion of Chemistry A is the prerequisite for Chemistry B. This course sequence will prepare the student for higher level science courses including college biology and college-level general chemistry. The two-semester sequence is strongly recommended for any student planning to pursue a science or engineering degree.

Prerequisites: MAT 090
Designation: College Prep
Credits: 0.5

Chemistry B with Lab

Description: Chemistry B is the second semester of a year-long course in Chemistry. During this course, students will practice cooperative, inquiry and self-guided learning in the study of matter including: chemical reactions, stoichiometry, states of matter, the gas laws, properties of water and solutions, thermochemistry, acid-base chemistry and nuclear chemistry. The course will be structured around a mix of lecture, group activities and labs. These activities will include working in small groups to provide the opportunity to reinforce the lecture material through various visual presentations and descriptions and receive help from the instructor. Laboratory experiences will encourage scientific thinking by following procedures, collecting and analyzing data and writing lab reports. Homework will emphasize the concepts being studied in class and provide opportunities for the student to use source material, including the textbook, to master the material. Successful completion of Chemistry A and concurrent enrollment in Algebra II or higher are the prerequisite for Chemistry B. This course sequence will prepare the student for higher level science courses including college biology and college-level general chemistry.

Prerequisites: Geometry; Chemistry A
Designation: College Prep
Credits: 0.5

CHEM 101—Principles of Chemistry & Lab

Description: Introduction to Chemistry I is a 5-credit course designed for non-science majors, students in occupational and health programs, and students with no chemistry background. Topics covered include the study of measurements, atomic theory, chemical bonding, nomenclature, stoichiometry, solutions, acids and bases, gas laws, and condensed states. Laboratory experiments will demonstrate the above concepts qualitatively and quantitatively. This course is one of the Statewide Guaranteed Transfer courses (GT-SC1). This course will also help students develop problem-solving techniques and gain a greater appreciation of the impact science has on our daily lives.

Prerequisites: BIO A/BIO B; MAT 099; COMP 090
Designation: Front Range Community College
Credits: 5.0
Agriculture, Food, and Natural Sciences
Description: This conceptual course will cover a wide range of topics concerning agriculture and natural resources, including plant and animal science, production, and processing; environmental science and conservation; ecology; agricultural mechanics; food production for a growing global population, business operations and management; and the careers available in the agricultural/natural resources industry. This course will also cover major historical events and current events in agriculture, as well as learning the importance of leadership, communications and public speaking as they relate to agriculture. There will be an opportunity for leadership development, work experiences, friendly competitions, volunteer hours, and travel through an associated student organization.
Prerequisites: None
Designation: College Prep
Credits: 1.0

Animal Science
Description: This course covers the basic anatomy and physiology of domestic animals (large and small), genetics, reproduction, animal health and welfare, evaluation and selection of animals, land stewardship and marketing. Students explore the necessary elements to create humane, ecologically and economically sustainable animal production systems. There will be an opportunity for leadership development, work experiences, and friendly competitions through an associated student organization.
Prerequisites: None
Designation: College Prep
Credits: 1.0

Plant and Soil Science
Description: This course covers the basic anatomy and physiology of domestic animals (large and small), genetics, reproduction, animal health and welfare, evaluation and selection of animals, land stewardship and marketing. Students explore the necessary elements to create humane, ecologically and economically sustainable animal production systems. There will be an opportunity for leadership development, work experiences, and friendly competitions through an associated student organization.
Prerequisites: None
Designation: College Prep
Credits: 1.0

Physical Science with Lab
Description: This course is designed to help students develop the skills and abilities necessary to be successful in science classes. The course will do so through the study of scientific measurement, data analysis focusing on chemistry and physics. Students will learn both general problem-solving and laboratory techniques, as well as specific concepts from each field, throughout several lectures and laboratory assignments in each section. Students will leave the course with a set of tools for future science classes as well as an indication of which sciences most appeal to their interests.
Prerequisites: MAT 060
Designation: College Prep
Credits: 0.5

Earth and Space Science
Description: The Earth and Space Science course is a course focusing on the study of space, geologic structures and forces, the waters on our planet, and the atmospheric forces that shape our world. Students will explore the Earth’s spheres including the geosphere, hydrosphere, cryosphere, atmosphere, and the cycles of the Earth such as the water and carbon cycle. Students will learn scientific inquiry, geologic time, space exploration, the solar system, and the universe.
Prerequisites: None
Designation: College Prep
Credits: 1.0

GEY 111—Physical Geology with Lab
Description: Introduces the major topics of geology. Course content encompasses Earth's materials, structure, and surface landforms. Geologic time and the geologic processes responsible for Earth's internal and external features are covered. This course includes laboratory experience.
Prerequisites: BIO A/BIO B; COMP 090
Designation: Front Range Community College
Credits: 4.0
GEY 135—Environmental Geology with Lab
Description: Environmental Geology introduces the subject of geology as it relates to human activities. Geologic hazards such as floods, landslides, earthquakes and volcanoes are investigated. Mineral, energy, soil and water resources are discussed in terms of their geologic formation and identification, usage by society and associated environmental impacts. Land use issues, waste and pollution are also examined.
Prerequisites: BIO A/BIO B; COMP 090
Designation: Front Range Community College
Credits: 4.0

PHY 105—Conceptual Physics with Lab
Description: Focuses on mechanics, heat, properties of matter, electricity and magnetism, light, and modern physics. Incorporates laboratory experience.
Prerequisites: BIO A/BIO B; Geometry; COMP 090
Designation: Front Range Community College
Credits: 4.0

Science Olympiad
Description: Students will explore the 23 events of Science Olympiad. Students will learn topics ranging from Chemistry to Astronomy, Anatomy to Structural Engineering. You will meet these challenges through hands-on problem solving, careful study, and thinking outside the box in preparation for competition.
Prerequisites: None
Designation: College Prep
Credits: 0.5
SOCIAL SCIENCE

Geography
Description: This course examines how climate and resources impact the movement and development of human societies. We will take a regional approach, studying how interactions between humans and their environment have impacted the characteristics of major world regions. Students will also learn to use geographic tools and resources to analyze Earth’s human systems and physical features to investigate and address geographic issues.
Prerequisites: None
Designation: College Prep
Credits: 1.0

Civics
Description: Students will study the history and civil government of the United States and of the state of Colorado. Topics include the history and contents of the Constitution, the functions of the three branches of government, structure of Colorado’s government, and key events in Colorado history. Students will also discuss current events at the national and local levels.
Prerequisites: Composition 090 concurrently or higher English course
Designation: College Prep
Credits: 1.0

Entrepreneurship I
Description: Business Entrepreneurship will provide students with a basic overview of the necessary components needed to create and present a business plan. We will cover SWOT Tables, the Business Model Canvas, the Lean Startup Method, as well as prototyping, marketing and financial strategies. These topics will be covered in lecture, practiced through group activities, and then applied to your own businesses. As a class, we will be using the Precious Plastics model during group activities to apply lecture concepts to a business, students can familiarize themselves with the company at: https://preciousplastic.com/. In addition to a few small projects, students will be tasked with creating their own written business model and presentation based on the skills they have gained over the course of the semester.
Prerequisites: None
Designation: College Prep
Credits: 0.5

Entrepreneurship II
Description: Entrepreneurship II builds on the skills that students learned in Entrepreneurship I and provides them the tools and support to launch their business.
Prerequisites: Entrepreneurship I
Designation: College Prep
Credits: 0.5

BUS 115—Introduction to Business
Description: Focuses on the operation of the American Business System. Covers fundamentals of the economy, careers and opportunities, marketing, management, production, governmental regulations, tools of business and social responsibilities.
Prerequisites: Placement based on NextGen ACCUPLACER score.
Designation: Front Range Community College
Credits: 3.0
BUS 216—Legal Environment of Business
Description: Emphasizes public law, regulation of business, ethical considerations, and various relationships existing within society, government, and business. Specific attention is devoted to economic regulation, social regulation, regulation and laws impacting labor-management issues, and environmental concerns. Students develop an understanding of the role of law in social, political, and economic change.
Prerequisites: Placement based on NextGen ACCUPLACER score.
Designation: Aims Community College
Credits: 3.0

BUS 217—Business Communication
Description: Emphasizes effective business writing and covers letters, memoranda, reports, application letters, and resumes. Includes the fundamentals of business communication and an introduction to international communication.
Prerequisites: Placement based on NextGen ACCUPLACER score.
Designation: Aims Community College
Credits: 3.0

CRJ 110—Introduction to Criminal Justice
Description: Introduces students to the basic components of the criminal justice system in the United States. Concepts of crime, perspectives and views of crime, crime data, theory, victimization, and law are discussed. Particular attention to the criminal justice process, interaction and conflict between criminal justice agencies, and current criminal justice issues are examined.
Prerequisites: COMP 090
Designation: Aims Community College
Credits: 3.0

CRJ 125—Policing Systems
Description: Examines policing in the United States, including historical foundations, emerging issues, and the relationship between law enforcement and the community. The various types of law enforcement agencies, their administrative practices, and the behavior of those involved in the delivery of police services are examined from the perspective of democratic values, racial and ethnic diversity, and societal perceptions of police effectiveness. Career requirements, including current and future trends, are also presented.
Prerequisites: COMP 090
Designation: Aims Community College
Credits: 3.0

CRJ 135—Judicial Function
Description: Provides an overview of the structure and function of the dual American judicial system and the behavior of actors (judges/justices, lawyers, law clerks, interest groups, etc.) within the system. Emphasis is placed on the organization and administration of state and federal courts, criminal court procedures, juries, selection of judges, decision-making behavior of juries, judges and justices, and the implementation and impact of judicial policies.
Prerequisites: COMP 090
Designation: Aims Community College
Credits: 3.0
ECO 201—Principles of Macroeconomics  
**Description:** Focuses on the study of the American economy, stressing the interrelationships among the household, business, and government sectors. Explores saving and investment decisions, unemployment, inflation, national income accounting, taxing and spending policies, the limits of the market and government, public choice theory, the Federal Reserve System, money and banking, and international trade.  
**Prerequisites:** Placement based on NextGen ACCUPLACER score.  
**Designation:** Front Range Community College  
**Credits:** 3.0

ECO 202—Principles of Microeconomics  
**Description:** Focuses on the consumer, the firm, the nature of cost, and how these relate to the economy as a whole. Analyzes economic models of the consumer, perfect competition, monopoly, oligopoly and monopolistic competition. Explores economic issues including market power, population growth, positive and negative externalities, income distribution, poverty and welfare, discrimination, and international economic inter-dependence.  
**Prerequisites:** Placement based on NextGen ACCUPLACER score.  
**Designation:** Front Range Community College  
**Credits:** 3.0

HIS 101—Western Civilization: Antiquity-1650  
**Description:** Explores events, peoples, groups, ideas, institutions, and trends that have shaped Western Civilization from the prehistoric era to 1650. Reflects the multiple perspectives of gender, class, religion, and ethnic groups. Focuses on developing, practicing, and strengthening the skills historians use while constructing knowledge in this discipline.  
**Prerequisites:** COMP 099  
**Designation:** Front Range Community College  
**Credits:** 3.0

HIS 101—Western Civilization: Antiquity-1650  
**Description:** Explores events, peoples, groups, ideas, institutions, and trends that have shaped Western Civilization from the prehistoric era to 1650. Reflects the multiple perspectives of gender, class, religion, and ethnic groups. Focuses on developing, practicing, and strengthening the skills historians use while constructing knowledge in this discipline.  
**Prerequisites:** COMP 099  
**Designation:** Front Range Community College  
**Credits:** 3.0

HIS 112—The World: 1500-Present  
**Description:** Explores peoples, groups, ideas, institutions, and trends that have shaped World History from 1500 to the present. Reflects the multiple perspectives of gender, class, religion, and ethnic groups in a broad global sense. Focuses on the common denominators among all people. This approach goes beyond political borders to provide a better appreciation for different cultures. Focuses on developing, practicing, and strengthening the skills historians use while constructing knowledge in this discipline.  
**Prerequisites:** COMP 099  
**Designation:** Front Range Community College  
**Credits:** 3.0
HIS 121—US History to Reconstruction
Description: Explores events, trends, peoples, groups, cultures, ideas, and institutions in North America and United States history, including the multiple perspectives of gender, class, and ethnicity, between the period when Native American Indians were the sole inhabitants of North America, and the American Civil War. Focuses on developing, practicing, and strengthening the skills historians use while constructing knowledge in the discipline.
Prerequisites: COMP 099
Designation: Front Range Community College
Credits: 3.0

HIS 122—US History Since the Civil War
Description: Explores events, trends, peoples, groups, cultures, ideas, and institutions in United States History, including the multiple perspectives of gender, class, and ethnicity, between the period of the American Civil War and the present. Focuses on developing, practicing, and strengthening the skills historians use while constructing knowledge in the discipline. This is a statewide Guaranteed Transfer course in the GT-HI1 category.
Prerequisites: COMP 099
Designation: Front Range Community College
Credits: 3.0

MAR 216—Principles of Marketing
Description: Presents the analysis of theoretical marketing processes and the strategies of product development, pricing, promotion and distribution, and their applications to business and the individual consumer.
Prerequisites: COMP 099
Designation: Front Range Community College
Credits: 3.0

PHI 112—Ethics
Description: Examines human life, experience, and thought to discover and develop the principles and values for pursuing a more fulfilled existence. This course examines ethical theories designed to both justify moral judgments, as well as apply these ethical theories to a selection of personal and social issues in the world today. This is a statewide Guaranteed Transfer course in the GT-AH3 category.
Prerequisites: COMP 090
Designation: Aims Community College
Credits: 3.0

PHI 113—Logic
Description: Studies effective thinking using language-oriented logic. Provides tools and develops skills for creative and critical thinking and the formal analysis of arguments. Emphasizes the development of decision-making and problem-solving. This is a statewide Guaranteed Transfer course in the GT-AH3 category.
Prerequisites: COMP 090
Designation: Aims Community College
Credits: 3.0

POS 125—American State and Local Government
Description: Emphasizes the structure and function of state, county, and municipal governments including their relations with each other and with national government. Includes a study of Colorado government and politics. This is a statewide Guaranteed Transfer course in the GT-SS1 category.
Prerequisites: Composition 090
Designation: Aims Community College
Credits: 3.0

PSY 101—General Psychology I
Description: Focuses on the scientific study of behavior including motivation, emotion, physiological psychology, stress and coping, research methods, consciousness, sensation, perception, learning, and memory. This is a statewide Guaranteed Transfer course in the GT-SS3 category.
PSY 102—General Psychology II

Description: Focuses on the scientific study of behavior including cognition, language, intelligence, psychological assessment, personality, abnormal psychology, therapy, life span development, sex, gender, sexuality, and social psychology. This is a statewide Guaranteed Transfer course in the GT-SS3 category.

Prerequisites: PSY 101

Designation: Aims Community College

Credits: 3.0
COLLEGE AND CAREER READINESS

Freshman Connection
Description: Freshman Connection is designed to help students discover their unique place at CECFC as well as provides the tools they need for a successful transition into high school. Students will meet with staff and peer mentors to make connections and discuss topics like organization and study skills as well as how to handle social situations and deal with conflict.
Prerequisites: Required for all 9th graders
Designation: College Prep
Credits: 0.25

SAT Prep English
Description: This course will help students discover strategies to work through the English portions of the SAT quickly and confidently. Students will learn and practice test-taking skills specific to the English sections in preparation for their chosen test date.
Prerequisites: 11th grade; concurrent enrollment with SAT English
Designation: College Prep
Credits: 0.25

SAT Prep Math
Description: While the SAT does test math knowledge and skills from the high school curriculum, proper strategy and test-taking know-how can greatly improve a student’s confidence during the test. This course will help students discover strategies to work through both math portions of the SAT quickly and confidently – even in problems covering topics a student may not yet have covered in class. Students will engage once weekly with a combination of math problems like those found on the SAT and test-taking strategies particular to the math portions.
Prerequisites: 11th grade; concurrent enrollment with SAT Math
Designation: College Prep
Credits: 0.25

College and Career Readiness
Description: College & Career Readiness will instruct students in executive functions/life-skills (organizing materials, managing time, task initiation, prioritization) and higher-order learning skills (goal setting, decision making and self-monitoring). Students will focus on these skills in the context of considering their own careers and/or college paths.
Prerequisites: None
Designation: College Prep
Credits: 1.0

BUS 217—Business Communication
Description: Emphasizes effective business writing and covers letters, memoranda, reports, application letters, and resumes. Includes the fundamentals of business communication and an introduction to international communication.
Prerequisites: Placement based on NextGen ACCUPLACER score.
Designation: Aims Community College
Credits: 3.0
WORLD LANGUAGES

ASL 121—American Sign Language I
Description: Exposes the student to American Sign Language. Readiness activities are conducted focusing on visual/receptive skills and basic communication. Utilizes the direct experience method.
Prerequisites: COMP 090
Designation: Aims Community College
Credits: 5.0

ASL 122—American Sign Language II
Description: Develops a basic syntactic knowledge of American Sign Language (ASL), basic vocabulary and basic conversational skills. Incorporates vital aspects of Deaf culture and community. The direct experience method is used to enhance the learning process.
Prerequisites: ASL 121
Designation: Aims Community College
Credits: 5.0

French I
Description: French I is a semester long course that focuses on the development of students’ communicative competence and their understanding of the cultural products, practice and perspectives of the Francophone world. Communicative competence is divided into three modes: speaking and writing as an interactive process in which students learn to communicate with other speakers of French-(Interpersonal mode); reading, listening and viewing as a receptive process in which comprehension is developed-(Interpretive mode); and speaking and writing in a presentational context in which students are focused on organization of thoughts and awareness of their audience when delivering information-(Presentational mode). Students communicate in real-life contexts where grammar and vocabulary are integrated according to various real-life situations in which they are required to function. Many of these tasks also connect to other content areas. Through the language learning process, students develop an understanding of how their own language is structured and how their own culture has unique aspects. Emphasis is placed on the use of French in the classroom as well as on the use of authentic materials to learn about the culture. A continued important component of language classes is the use of the language beyond the classroom in order to apply knowledge of the language in the real world.
Prerequisites: COMP/LIT 060
Designation: College Prep
Credits: 1.0

French II
Description: French II is a semester long course that focuses on the development of students’ communicative competence and their understanding of the cultural products, practice and perspectives of the Francophone world. Communicative competence is divided into three modes: speaking and writing as an interactive process in which students learn to communicate with other speakers of French-(Interpersonal mode); reading, listening and viewing as a receptive process in which comprehension is developed-(Interpretive mode); and speaking and writing in a presentational context in which students are focused on organization of thoughts and awareness of their audience when delivering information-(Presentational mode). This course builds on grammar and vocabulary learned in French I, where students learned to communicate in the present indicative, to include communication in imperative, future and past tenses.
Prerequisites: French I
Designation: College Prep
Credits: 1.0

Mandarin Chinese I
Description: This is a beginner Chinese class focused on learning Chinese culture and simple words for greetings, names, family members, numbers, days, dates, time, directions, weather, food, cloth, transportation, etc.
Prerequisites: COMP/LIT 060
Designation: College Prep
Credits: 1.0
Mandarin Chinese II
Description: This is a second level Chinese class focused on daily communications. Students will learn how to express their needs, opinions, comments, etc.
Prerequisites: Mandarin Chinese I
Designation: College Prep
Credits: 1.0

Spanish I
Description: Spanish I is a semester long course that focuses on the development of students’ communicative competence and their understanding of the cultural products, practice, and perspectives of the Spanish-speaking world. Communicative competence is divided into three modes: speaking and writing as an interactive process in which students learn to communicate with other Spanish-speakers (Interpersonal mode); reading, listening, and viewing as a receptive process in which comprehension is developed (Interpretive mode); and speaking and writing in a presentational context in which students are focused on organization of thoughts and awareness of their audience when delivering information (Presentational mode). Students communicate in real-life contexts where grammar and vocabulary are integrated according to various real-life situations in which they are required to function. Many of these tasks also connect to other content areas. Through the language learning process, students develop an understanding of how their own language is structured and how their own culture has unique aspects. Emphasis is placed on the use of Spanish in the classroom as well as on the use of authentic materials to learn about the culture. An important component of this course is the use of Spanish beyond the classroom in order to apply it in the real world.
Prerequisites: COMP/LIT 060
Designation: College Prep
Credits: 1.0

Spanish II
Description: Spanish II is a semester long course that focuses on the development of students’ communicative competence and their understanding of the cultural products, practice, and perspectives of the Spanish-speaking world. Communicative competence is divided into three modes: speaking and writing as an interactive process in which students learn to communicate with other Spanish-speakers (Interpersonal mode); reading, listening, and viewing as a receptive process in which comprehension is developed (Interpretive mode); and speaking and writing in a presentational context in which students are focused on organization of thoughts and awareness of their audience when delivering information (Presentational mode). Students communicate in real-life contexts where grammar and vocabulary are integrated according to various real-life situations in which they are required to function. Many of these tasks also connect to other content areas. Through the language learning process, students develop an understanding of how their own language is structured and how their own culture has unique aspects. Emphasis is placed on the use of Spanish in the classroom as well as on the use of authentic materials to learn about the culture. An important component of this course is the use of Spanish beyond the classroom in order to apply it in the real world.
Prerequisites: Spanish I
Designation: College Prep
Credits: 1.0

Spanish III
Description: Spanish III is a semester long course that will focus on various topics such as art, music, literature, etc. in order to comprehend, respect and appreciate the Hispanic World. Students will continue to develop their proficiency in speaking, listening, writing and reading by reviewing content they learned in Spanish I and II, as well as learning new vocabulary and grammatical structures. The course will implement the three modes of communication: interpretive, interpersonal, and presentational. Each unit consists of a variety of tasks to understand written and spoken passages, to communicate with others through informal/formal speaking and writing interactions, and to express their thoughts and opinions in both formal and informal spoken and written contexts. The course will also touch on the importance of foreign languages as a career and will provide students with the opportunity to explore those options as with translation techniques, interpretation projects, etc. The course has been carefully aligned to national standards as set forth by ACTFL (the American Council on the Teaching of Foreign Languages).
Prerequisites: Spanish II
Designation: College Prep
Credits: 1.0
SPA 111—College Spanish I
Description: Develops students' interpretive, interpersonal, and presentational communicative abilities in the language. Integrates these skills in the cultural contexts in which the language is used. Offers a foundation in the analysis of culture.
Prerequisites: College Prep Spanish I
Designation: Aims Community College
Credits: 5.0

SPA 112—College Spanish II
Description: Expands students' interpretive, interpersonal, and presentational communicative abilities in the language across the disciplines. Integrates these skills with the study of the cultures in which the language is used. Offers a foundation in the analysis of culture and develops intercultural communicative strategies.
Prerequisites: SPA 111
Designation: Aims Community College
Credits: 5.0
What is a CTE Program?
Career and technical education (CTE) consists of programs teaching specific career skills to students in middle school, high school, and post-secondary institutions. In Colorado CTE is split into 17 career clusters that meet the criteria of being high-wage, high-skill, and high-demand careers. CECFC has CTE programs in STEM, Construction, Art, Information Technology and Agriculture and are looking to add Manufacturing, Business and Family and Consumer Science in the future.

Structure of a CTE Program
CTE programs consist of a sequence of courses that are designed to teach students the skills they need to be successful academically and in the workplace in that career cluster. All programs have a sequence of four courses that students can take while at CECFC. All of our programs start with a class that focuses on career exploration, includes the opportunity to earn industry certifications, and has an associated student organization. Most programs level 4 course is a capstone project or work-based learning experience that exposes students to what work in that field would be. Programs are guided by an advisory board made up of industry, education partners and other stakeholders.

* Requires level 1 course as Prerequisite  
** Requires level 2 course as Prerequisite  
*** Requires level 3 course as Prerequisite
CAREER AND TECHNICAL EDUCATION COURSES

Principles of Manufacturing
Description: Gives students a broad understanding of manufacturing and the role of the advanced manufacturing. Students learn how manufacturing is important to Colorado and the U.S. Topics covered include manufacturing concepts, principles, and processes, cost elements, tools and techniques, safety, current trends and manufacturing in the future. This course provides the student an overview of the different methods, tools and machines which are used to manufacture industrial and consumer product
Prerequisites: None
Designation: College Prep
Credits: 0.5

Introduction to Machining
Description: Basic fundamentals in the operation of machine tools are studied, including measuring tools, benchmark and layout, and tool grinding. The student performs various machine operations using the engine lathe, milling machine, vertical drills, and surface grinders. This course covers blue print reading, advanced inspection, tool & cutter grinding, horizontal mill setup & operation, CAD/CAM 2D, GD & T, conventional lathe operations, and milling machine & engine lathe.
Prerequisites: Principles of Manufacturing
Designation: College Prep
Credits: 0.5

CNC Manufacturing
Description: This course covers fundamentals of computer numerical control (CNC), basic programming, machine setup and operation of CNC machines. The course begins with manual programming practices so that the student will understand the programming code and its structure. G & M codes, control functions, the letter address system, and math issues related to CNC are included. Standard safety conventions will be introduced for safe programming practice. This course allows for the further development of CNC skills with hands-on instruction related to the CNC milling machines, and CNC turning centers. The lab work includes operation of CNC machines to demonstrate the programming skills.
Prerequisites: Principles of Manufacturing and Introduction to Machining
Designation: College Prep
Credits: 0.5

Principles of Engineering and Technology
Description: Principles of Engineering and Technology is designed to introduce students to the STEM cluster for students interested in learning more about careers in engineering and technology. This course covers basic skills required for engineering and technology fields of study. Upon completion of this course, students are able to identify and explain the steps in the engineering design process. They can evaluate an existing engineering design, use fundamental sketching and engineering drawing techniques, complete simple design projects using the engineering design process, and effectively communicate design solutions to others.
Prerequisites: None
Designation: College Prep
Credits: 0.5
CAD 101/102—Computer-Aided Drafting/2D I and II
**Description:** Focuses on basic computer aided drafting skills using the AutoCAD software. Includes file management, Cartesian coordinate system & dynamic input, drawing templates, drawing aids, linetype and lineweights, layer usage, drawing & editing geometric objects, polylines & splines, array, text applications, creating tables, basic dimensioning, and Help access.
**Prerequisites:** Principles of Engineering and Technology preferred
**Designation:** Front Range Community College
**Credits:** 6.0

CAD 255—Solid Works
**Description:** Introduces parametric feature-based solid modeling 3D concepts to build confidence in 3D thinking and progresses to three-dimensional parameters. The student learns to construct, modify, and manage complex parts in 3D space as well as to produce 2D drawings from the 3D models.
**Prerequisites:** Principles of Engineering and Technology preferred
**Designation:** Front Range Community College
**Credits:** 3.0

Robotics & Automated Systems (non-competition)
**Description:** Robotics & Automated Systems is an applied course for students who wish to explore how robots and automated systems are used in industry. Upon completion of this course, students will have an understanding of the historical and current uses of robots and automated systems; programmable circuits, interfacing both inputs and outputs; ethical standards for engineering and technology professions; and testing and maintenance of robots and automated systems.
**Prerequisites:** None
**Designation:** College Prep
**Credits:** 0.5

Applied Robotics (competition)
**Description:** Robotics will allow students to develop skills in the robotics field by studying programming, electronics, pneumatics, hydraulics, and mechanical systems. Robotics applications and career exploration in the robotics industry are incorporated in this course. Students will apply Physical Science, Mathematics, and Technology while getting hands-on experience designing, constructing and testing robots. This course will be of interest to students planning careers in automated manufacturing and engineering. Students will have the opportunity to compete in several Saturday competitions throughout the semester with teams from around the state. These competitions are not required as part of the class and participation does not affect grades.
**Prerequisites:** Robotics and Automated Systems or previous Robotics experience
**Designation:** College Prep
**Credits:** 0.5

CON 110—Introduction to Construction I
**Description:** Explores the expanding array of careers within the construction industry. Students will be exposed to the construction industry through job site tours, hands-on experience, and classroom activities. Math and science application will be established through the academic integration of jobsite technical skills and classroom theory.
**Prerequisites:** None
**Designation:** Front Range Community College
**Credits:** 4.0
CON 111—Introduction to Construction II
**Description:** Explores additional careers within the construction industry. Students will be exposed to the construction industry through jobsite tours, hands-on experience, and classroom activities. Math and science application will be established through the academic integration of jobsite technical skills and classroom theory.
**Prerequisites:** CON 110
**Designation:** Front Range Community College
**Credits:** 4.0

CON 289—Capstone: Construction
**Description:** Provides a demonstrated culmination of learning within a given program of study.
**Prerequisites:** CON 110; CON 111
**Designation:** Front Range Community College
**Credits:** 2.0

OSH 127—Construction Industry Standards
**Description:** Provides a 10-Hour Occupational Safety and Health Administration (OSHA) certification course for the construction industry and participants will review the current OSHA standards contained in 29 Code of Federal Regulations (CFR) 1926. Participants that complete the course will receive a certificate of completion from the United States Department of Labor, Occupational Safety and Health Administration. The course is taught by instructors certified by the Occupational Safety and Health Administration.
**Prerequisites:** None
**Designation:** Front Range Community College
**Credits:** 1.0

Career Pathways
**Description:** This course is designed to identify career interest areas based on your goals, individual skills, and aptitudes. Investigate interests, abilities and goal through various projects, and career testing procedures. Students will develop a usable education and career portfolio containing
**Prerequisites:** None
**Designation:** College Prep
**Credits:** 0.5

Textiles I/II
**Description:** Students will gain a foundational understanding of sewing and textiles including a variety of basic skills and machine usage.
**Prerequisites:** None/Textiles I (Career Pathways Preferred)
**Designation:** College Prep
**Credits:** 0.5
**Fashion Design I/II**
**Description:** Students will learn how to design, draw, and style clothing; apply the elements and principles of design in various aspects of the fashion industry; understand the relationship between history and fashion; know the general characteristics, production, and maintenance of textiles and textile products; study and analyze fashion trends; and demonstrate the skills and procedures necessary for sales and marketing in the fashion industry. This course prepares students to understand the social, psychological, physiological and design aspects of fashion, textiles, and apparel. Instruction includes apparel and behavior; elements and principles of design; color theory, wardrobe planning, history of apparel, specialized clothing, wardrobe budgets, retail options, textiles, garment care, alterations, personal and family clothing selection and purchase; design and construction of clothing.
**Prerequisites:** None
**Designation:** College Prep (Career Pathways Preferred)
**Credits:** 0.5

**Interior Design I/II**
**Description:** This course is designed to teach you the elements of design. Students learn to create an impact through the use of color, fabrics and textures. Instruction includes the history of interior design, geometry of design, computer based architectural drafting, design theory, and project presentation. Students will learn to design, draw, and plan rooms using the fundamentals of basic design. Communication skills, interpersonal skills, teamwork, and ethics will be the basis of our learning. English language arts and math are reinforced throughout the course.
**Prerequisites:** None/Interior Design I (Career Pathways Preferred)
**Designation:** College Prep
**Credits:** 0.5

**Woodworking I**
**Description:** Woodworking 1 will cover basic concepts of woodworking, providing a student with the knowledge to apply their skills to progressively more intricate projects. Students enrolled in the course will learn how to design, plan and construct wood projects, including a project of their own design. We will be covering proper use of both power and hand tools, with a paramount focus on safe operation of these tools, as well as shop safety procedures. All students will have to pass a rigorous safety test before using any equipment, and abide by strict safety rules in the shop. Students explore precision measurement of wood fabrication through 3d modeling, operating CNC tools such as CNC routers, mills and a laser cutter/engraver. Jigs and fixtures are modeled and fabricated through 3d printing to precisely hold work in difficult positions.
**Prerequisites:** None
**Designation:** College Prep
**Credits:** 0.5

**Woodworking II**
**Description:** Woodworking 2 is designed to build upon the basic concepts of woodworking, providing a student with the knowledge to apply their skills to intricate projects. Students enrolled in the course will improve their skills designing, planning and constructing wood projects, including a project of their own design. We will be covering proper use of both power and hand tools, with a paramount focus on safe operation of these tools, as well as shop safety procedures. All students will have to pass a rigorous safety test before using any equipment and abide by strict safety rules in the shop. As a capstone project, students will be required to use 3d modeling software to create a project that incorporates 3d contours, program toolpaths, and create the project using CNC machines. The project must also incorporate a basic electronic circuit that must be wired and soldered by hand.
**Prerequisites:** Woodworking I
**Designation:** College Prep
**Credits:** 0.5
**COMPUTER SCIENCE**

**Computer Science Foundations**
*Description:* Computer Science Foundations (CSF) is a course intended to provide students with exposure to various information technology occupations and pathways such as Networking Systems, Coding, Web Design, and Cybersecurity. Upon completion of this course, proficient students will be able to describe various information technology (IT) occupations and professional organizations. Moreover, they will be able to demonstrate logical thought processes and discuss the social, legal, and ethical issues encountered in the IT profession. Depending on the focus area, proficient students will also demonstrate an understanding of electronics and basic digital theory; project management and teamwork; client relations; causes and prevention of Internet security breaches; and writing styles appropriate for web publication. Upon completion of the CSF course, students will be prepared to make an informed decision about which Information Technology program of study to pursue.

*Prerequisites:* None  
*Designation:* Certification  
*Credits:* 0.5

**A+ Certification**
*Description:* TestOut PC Pro prepares students for the TestOut PC Pro and CompTIA A+ 220-1001 (Core 1) and 220-1002 (Core 2) certification exams. Students use multiple learning formats to learn how to install, manage, and secure computer hardware and master home and corporate OS environments.

*Prerequisites:* None  
*Designation:* Certification  
*Credits:* 0.5

**Network+ Certification**
*Description:* The TestOut Network Pro prepares students for the TestOut Network Pro certification exam and CompTIA’s Network+ N10-007 certification exam. Students gain the knowledge and skills they need to install, configure, and maintain a network for a small business.

*Prerequisites:* PC Pro (A+ Certification) is required before Network+  
*Designation:* Certification  
*Credits:* 0.5

**CIS 118—Introduction to PC Applications**
*Description:* Introduces basic computer terminology, file management, and PC system components. Provides an overview of office application software including word processing, spreadsheets, databases, and presentation graphics. Includes the use of a web browser to access the Internet.

*Prerequisites:* MAT 090  
*Designation:* Front Range Community College  
*Credits:* 3.0

**CSC 160—Computer Science I (Java or C+)**
*Description:* Introduces students to the discipline of computer science and programming. Algorithm development, data representation, logical expressions, sub-programs and input/output operations using a high-level programming language are covered. Intensive lab work outside of class time is required.

*Prerequisites:* Computer Science Foundations preferred  
*Designation:* Front Range Community College  
*Credits:* 4.0
CSC 161—Computer Science II (Java or C+)

Description: Continues the structured algorithm development and problem-solving techniques begun in Computer Science I. Enables students to gain experience in the use of data structures and design of larger software projects. Requires intensive computer laboratory experience.

Prerequisites: CSC 160

Designation: Front Range Community College

Credits: 4.0
VISUAL ART

ART 110—Art Appreciation
Description: Introduces the cultural significance of the visual arts, including media, processes, techniques, traditions, and terminology.
Prerequisites: COMP 090
Designation: Front Range Community College
Credits: 3.0

ART 121—Drawing I
Description: Investigates the various approaches and media that students need to develop drawing skills and visual perception.
Prerequisites: COMP/LIT 060
Designation: Front Range Community College
Credits: 3.0

ART 221—Drawing II
Description: Explores expressive drawing techniques with an emphasis on formal composition, color media and content or thematic development.
Prerequisites: ART 121
Designation: Front Range Community College
Credits: 3.0

ART 124—Watercolor
Description: Provides an introduction to the basic techniques and unique aspects of materials involved in the use of either transparent or opaque water media or both. Color theory is included.
Prerequisites: COMP/LIT 060
Designation: Front Range Community College
Credits: 3.0

ART 131—Visual Concepts- 2-D Design
Description: Examines the basic elements of design, visual perception, and artistic form and composition as they relate to two-dimensional media.
Prerequisites: COMP/LIT 060
Designation: Front Range Community College
Credits: 3.0

ART 132—Visual Concepts- 3-D Design
Description: Focuses on learning to apply the elements and principles of design to three-dimensional problems.
Prerequisites: COMP/LIT 060
Designation: Front Range Community College
Credits: 3.0

ART 161—Ceramics
Description: Introduces traditional and contemporary ceramic forms and processes including hand building and throwing on the potter's wheel.
Prerequisites: COMP/LIT 060
Designation: Front Range Community College
Credits: 3.0

ART 261—Ceramics II
Description: A continuation of ART 161, this course emphasizes skill, technique and form.
Prerequisites: ART 161
Designation: Front Range Community College
Credits: 3.0
ART 262—Ceramics III
Description: Encourages students to develop an individual style of wheel thrown and hand built ceramic forms with continuing involvement in surface treatment.
Prerequisites: ART 261
Designation: Front Range Community College
Credits: 3.0

Foundations of Design, Multimedia Arts, and Digital Communications
Description: Student are introduced to the variety of programs and occupations in the arts, audio/video technology, and communications systems. Within this context, students will be expected to develop an understanding of the various and multifaceted career opportunities in this cluster and the knowledge, skills, and educational requirements for those opportunities.
Prerequisites: None
Designation: College Prep
Credits: 0.5

Digital Audio Technology I
Description: This course is designed to provide students interested in audio production careers such as audio for radio and television broadcasting, audio for video and film, audio for animation and game design, music production and live sound, and additional opportunities and skill sets. Digital Audio Technology I does not replace Audio/Video Production courses but is recommended as a single credit, co-curricular course with an audio production technical emphasis. This course can also be paired with Digital Media. Students will be expected to develop an understanding of the audio industry with a technical emphasis on production and critical-listening skills. Each student will be responsible for creating three of their own, original podcasts as well as three other projects focusing on special effects and context in audio and video.
Prerequisites: None
Designation: College Prep
Credits: 0.5

Print Media
Description: Print Media will explore the mixture of media arts and studio arts through the making of zines. Zines are small, self-circulating publications that can be about nearly anything. Our AmaZine students will explore the making and promotion of zines to promote skills in digital art, template making, formatting, content editing, collaboration, and project management. The class will support the publication of 3 zines each semester.
Prerequisites: Foundations of Design, Multimedia Arts, and Digital Communication preferred
Designation: College Prep
Credits: 0.5
MGD 117—Visual Communications
Description: Concentrates on the high-end capabilities of Adobe Photoshop as an illustration, design and photo retouching tool. Students explore a wide range of selection and manipulation techniques that can be applied to photos, graphics and videos. Course competencies and outline follow those set out by the Adobe Certified Associate exam in Visual Communication Using Adobe Photoshop.
Prerequisites: MGD 117 preferred
Designation: Front Range Community College
Credits: 3.0

MGD 111—Adobe Photoshop I
Description: Concentrates on the high-end capabilities of Adobe Photoshop as an illustration, design and photo retouching tool. Students explore a wide range of selection and manipulation techniques that can be applied to photos, graphics and videos. Course competencies and outline follow those set out by the Adobe Certified Associate exam in Visual Communication Using Adobe Photoshop.
Prerequisites: MGD 117 preferred
Designation: Front Range Community College
Credits: 3.0

MGD 112—Adobe Illustrator
Description: Concentrates on the high-end capabilities of Adobe Illustrator as an illustration, design and vector drawing tool. Students learn how to use the tools to create digital artwork that can be used in web design, print media, and digital screen design. Course competencies and outline follow those set by the Adobe certified Associate exam in Visual Communication using Adobe Illustrator.
Prerequisites: MGD 117 preferred
Designation: Front Range Community College
Credits: 3.0

MGD 114—Adobe InDesign
Description: Introduces students to InDesign, a page layout program that integrates seamlessly with other Adobe design programs. InDesign delivers creative freedom and productivity to DTP. Class discussions and independent projects supplement hands-on classroom work.
Prerequisites: MGD 117 preferred
Designation: Front Range Community College
Credits: 3.0

MGD 133—Graphic Design I
Description: Focuses upon the study of design layout and conceptual elements concerning graphic design projects such as posters, advertisements, logos, and brochures.
Prerequisites: MGD 114 required; MGD 117 preferred
Designation: Front Range Community College
Credits: 3.0
PERFORMING ARTS

Beginning Guitar
Description: This course is designed for students who are brand new at playing the guitar. Students will learn chords, individual note reading (tab), scales, and strumming/rhythm. Students are responsible for practicing outside of class time. Students will need to provide their own acoustic guitar, tuner and capo. Be sure to bring your guitar the first day of class!
Prerequisites: None
Designation: College Prep
Credits: 0.25

Int/Adv Guitar
Description: This is a continuation of Guitar 1. Students will learn chords, tab, scales, strumming, along with alternate tuning, picking, and chord structure/set up for song writing. Prerequisite: students must have taken Guitar 1 or know basic first position chords on the guitar (A, E, G, C, D em, am). Practice outside of class time is a must. Students will need to provide their own acoustic guitar, tuner, and capo. Bring your guitar the first day of class!
Prerequisites: Beginning Guitar
Designation: College Prep
Credits: 0.25

Jazz Band
Description: Jazz Band exposes the student to various types of jazz literature in order to obtain an appreciation of the area of musical performance. Jazz Band is open to students who play the following instruments: woodwind, brass, orchestra, percussion, guitar, electric bass, and piano. Woodwind, brass, orchestra, and percussion
Prerequisites: Students must also be enrolled in a music ensemble class.
Designation: College Prep
Credits: 0.5

Choir (Beginning/Intermediate/Advanced)
Description: Choir is a performance-based singing class that develops sight-reading, pitch memory, basic music notation, proper tone quality, breath management and group performance techniques. Any student can join choir. You do not have to have prior experience. Participation in four concerts plus other special programs is required. This course may be repeated for additional credits. Students can choose to be in both choirs and receive credit for each.
Prerequisites: None
Designation: College Prep
Credits: 0.5

MUS 120—Music Appreciation
Description: Covers the basic materials of music, musical forms, media, genres and musical periods. Emphasizes the development of tools for intelligent listening and appreciation.
Prerequisites: COMP/LIT 090
Designation: Front Range Community College
Credits: 3.0

MUS 122—Music History Romantic-Present
Description: Studies the various periods of music history with regard to the composers, aesthetics, forms, and genres of each period. Considers music from the Middle Ages through the Classical period. This course is one of the Statewide Guaranteed Transfer courses.
Prerequisites: COMP/LIT 090
Designation: Front Range Community College
Credits: 3.0
MUS 126—History of Rock and Pop
Description: Provides a survey of basic materials of music, musical forms, media, genres, and musical periods of Rock and Pop music. It emphasizes the development of tools for intelligent listening and appreciation.
Prerequisites: None
Designation: Front Range Community College
Credits: 3.0

MUS 131—Music Class I (piano)
Description: Applies the fundamentals of music to the voice or specific musical instruments. This course also introduces basic techniques, repertoire, and sight-reading.
Prerequisites: None
Designation: Front Range Community College
Credits: 2.0

MUS 132—Music Class II (piano)
Description: Applies the fundamentals of music to the voice or specific musical instruments. The course also introduces basic techniques, repertoire, and sight-reading.
Prerequisites: MUS 131
Designation: Front Range Community College
Credits: 2.0

College Prep—Music Ensemble I/II (Band)
Description: Students in this class will cultivate and refine music ensemble performance skills, learn to read and interpret assigned musical parts, improve primary instrumental musical performance, collaborate with peers in a larger group, and learn a variety of musical performance techniques.
Prerequisites: None
Designation: College Prep
Credits: 0.5

MUS 151/152/251/252- Music Ensemble I/II (Band)
Description: Students in this class will cultivate and refine music ensemble performance skills, learn to read and interpret assigned musical parts, improve primary instrumental musical performance, collaborate with peers in a larger group, and learn a variety of musical performance techniques.
Prerequisites: Must audition for college level per FRCC curriculum
Designation: Front Range Community College
Credits: 1.0

College Prep—Music Ensemble I/II (Orchestra)
Description: Students in this class will cultivate and refine music ensemble performance skills, learn to read and interpret assigned musical parts, improve primary instrumental musical performance, collaborate with peers in a larger group, and learn a variety of musical performance techniques.
Prerequisites: None
Designation: College Prep
Credits: 0.5
MUS 151/152/251/252 and College Prep—Music Ensemble I/II (Orchestra)

Description: Students in this class will cultivate and refine music ensemble performance skills, learn to read and interpret assigned musical parts, improve primary instrumental musical performance, collaborate with peers in a larger group, and learn a variety of musical performance techniques.

Prerequisites: Varies depending on the group

Designation: College-prep/Aims Community College.

Credits: 1.0
PHYSICAL EDUCATION

Functionality Fitness
Description: This course is designed to teach fundamentals of a variety of fitness activities. The goal of functional fitness is to prepare our bodies and minds for life activities through training. Students will learn techniques to improve muscular endurance, speed/agility, core strength, flexibility, and balance.
Prerequisites: None
Designation: College Prep
Credits: 0.25

Introduction to Team Sports
Description: This course is designed to teach fundamentals of a variety of team sports. We will work on specific aspects of each game, such as passing, shooting, dribbling, and moving to open space. We will learn rules and strategies for each sport. Sports may include and are not limited to: Basketball, Volleyball, Floor Hockey, Soccer, Flag Football, Kickball, and Handball.
Prerequisites: None
Designation: College Prep
Credits: 0.25

Introduction to Weightlifting/Introduction to Weightlifting LTD
Description: This course is designed to teach fundamental skills in weightlifting. Students will be taught techniques to improve strength, flexibility, and muscular endurance. Students will be taught proper form and etiquette to set them up for success in other/future weight training environments. We will learn to use a variety of methods such as free weights, cable resistance, body weight exercises, resistance bands, and medicine balls.
Prerequisites: None
Designation: College Prep
Credits: 0.25

Basic Yoga
Description: Offers a guided instruction in yoga. Students practice yoga according to their individual fitness levels and abilities. Encourages growth in strength, flexibility, and balance.
Prerequisites: None
Designation: College Prep
Credits: 0.25

PED 143—Yoga I
Description: Offers a guided instruction in yoga. Students practice yoga according to their individual fitness levels and abilities. Introduces history and philosophy of yoga. Emphasizes enhancing general health and well-being through the performance of yoga strength, flexibility, balance, and relaxation techniques and exercises. Briefly introduces history and philosophy of yoga.
Prerequisites: None
Designation: Aims Community College
Credits: 1.0
