INTRODUCING STEM-focused Learning

Hands-on, Real-world, Engaging
Science Technology Engineering Math

- Project-based - students' learning culminates in answering real-world questions or problems
- Mastery-based - students learn through failing forward and perseverance to learn for themselves

So why join the STEM Academy?

A couple good reasons:
- engage in real-world problems and projects
- learn through a lens that makes sense through cross-collaborative work
- receive an Idaho STEM Diploma
- engage in hands-on work
- participate in different competitions and field trips around the valley, state, and country
- receive a mentor who will help and guide you through your high school career
- receive the same opportunities you do in a comprehensive high school but with a small school feel
- be a part of a community of fellow scientist, nerds, and innovators

NSD STEM Academy
301 South Happy Valley Road
Nampa, Idaho 83687
According to U.S. News, STEM-related careers make up the top 30 best jobs due to demand and competitive salary.

**Focused on tapping into every student's potential**
