

New Construction

Determining Needs

The Superintendent shall maintain planning procedures for school facilities. These procedures shall serve as the basis for determining facility needs that will enhance the district educational program. Accordingly, criteria for determining these needs shall reflect the goals and objectives of the district facilities master plan.

The Superintendent shall draw upon all necessary resources to assure that proposed district facilities meet the educational needs of the students and conform to all planning requirements imposed by state and local governmental agencies. These resources shall include district staff, educational consultants, architectural and engineering firms, utility companies, local governmental and planning agencies, the State Department of Education and the Office of the State Architect.

To assure a comprehensive approach to projecting and planning needs, the following elements shall be considered in planning school facilities:

1. The expanding and changing educational program of the district including the number of children to be served and their specific educational needs.
2. The impact of proposed facilities on the community and considerations regarding community use of the facilities.
3. Safety and welfare of students.
4. The relationship between existing and new facilities.
5. Community planning and zoning requirements.
6. Other site specific information which provide guidance in the planning of facilities.
