

Dear Parents/Guardians:

This year our students will be learning how to respond safely during an emergency situation using the *Standard Response Protocol (SRP)*. In conjunction with learning some of these skills, we will be teaching students about people who are there to help them be safe in the community: first responders. Please see the attached flyer for more information about SRP.

In addition to learning about safety protocols and first responders, your student will review their own personal information, including their full name, address, and phone number. This information will be needed to connect students with their families in the follow up to a crisis situation. Please work on these skills (full name, address and phone number) at home.

As the year progresses, please see the *Safety* section of the school Newsletter for safety updates. We would like an ongoing dialogue to occur between school and home in regard to safety protocols.

Thank you for your continued support.

STUDENT SAFETY

A critical ingredient in the safe school recipe is the classroom response to an incident at school. Weather events, fire, accidents, intruders and other threats to student safety are scenarios that are planned and trained for by students, teachers, staff and administration.

SRP

Our school is expanding the safety program to include the Standard Response Protocol (SRP). The SRP is based on these four actions. Lockout, Lockdown, Evacuate and Shelter. In the event of an emergency, the action and appropriate direction will be called on the PA.

LOCKOUT - "Secure the Perimeter"

LOCKDOWN - "Locks, Lights, Out of Sight"

EVACUATE - "To the Announced Location"

SHELTER - "For a Hazard Using a Safety Strategy"

TRAINING

Please take a moment to review these actions. Students and staff will be trained and the school will drill these actions over the course of the school year.
