

On March 16th, Governor Stitt and State Superintendent Hofmeister have made the decision to close all school in Oklahoma for two weeks after Spring Break due to COVID-19. This decision, while inconvenient, is the best decision for students, staff, and families at this time. As of now, class will resume on Monday, April 6th, but please know that can change as new information is made available.

Students and staff will not be permitted in our facility and no instruction and school-related activities will take place during this school closure. Please be on the lookout for more information regarding the following topics:

- Food Services
- School-related services
- Testing Information

In addition to health and safety practices, communication is important. We will communicate any information through newsletter, school website and Facebook pages. If you have questions that pertain to COVID-19 concerns related Le Monde, please direct those questions and concerns to this email: info@lemondenorman.org

During this closure, we ask everyone to stay calm and commit ourselves to practicing good hygiene habits. In addition, the CDC has advised that if an individual who is exposed to the virus then contracts it, symptoms show within 2-14 days. The symptoms include - fever of 100.0 degrees or higher, shortness of breath, and cough. For more information <https://www.cdc.gov/coronavirus/2019-ncov/index.html>.

Sincerely,

Lance Seeright
Executive Director
Le Monde International School
