IPM statement

It is the goal of Calipatria Unified School District to implement IPM by focusing on long-term prevention or suppression of pests through accurate pest identification, by frequent monitoring for pest presence, by applying appropriate action levels, and by making the habitat less conducive to pests using sanitation and mechanical and physical controls. Pesticides that are effective will be used in a manner that minimizes risks to people, property, and the environment, and only after other options have been shown ineffective.

Our pest management objectives are to: *(Example: Focus on long-term pest prevention)*

With the focus on long-term pest prevention, the District intends to manage pest populations by monitoring and identifying pest populations and by identifying and eliminating conditions that affect pest populations.

IPM team

In addition to the IPM Coordinator, other individuals who are involved in purchasing, making IPM decisions, applying pesticides, and complying with the Healthy Schools Act requirements, include:

Name and/or Title	Role in IPM program
Maintenance-Operations Supervisor	Advisory role, overseeing the day-to-day operations of buildings and grounds

Pest management contracting

- Pest management services are contracted to a licensed pest control business.
Pest Control Business names(s): I V Termite & Pest Control, Inc.
- Prior to entering into a contract, the school district has confirmed that the pest control business understands the training requirement and other requirements of the Healthy Schools Act.

Pest identification, monitoring and inspection

Pest Identification is done by: I V Termite & Pest Control, Inc.

(Example: College/University staff, Pest Control Business, etc.)

Monitoring and inspecting for pests and conditions that lead to pest problems are done regularly by Maintenance Staff and results are communicated to the IPM Coordinator.

(Example: District staff title, e.g. Maintenance staff.)

Specific information about monitoring and inspecting for pests, such as locations, times, or techniques include:
(Example: Sticky monitoring boards are placed in the kitchen and are checked weekly by custodial staff.)

Monitoring and reporting of pest infestations are done by site staff and district maintenance staff. If conditions require treatment, the District and pest management control company will develop a plan for implementation.

Cafeteria kitchens, maintenance, transportation, and district office buildings are inspected and sprayed with FIFRA 25(b) exempt products by I V Termite & Pest Control, Inc. on the 1st Friday of each month.

Pests and non-chemical management practices

This school district has identified the following pests and routinely uses the following non-chemical practices to prevent pests from reaching the action level:

Pest	Remove food	Fix leaks	Seal cracks	Install barriers	Physical removal	Traps	Manage irrigation	Other
Rodents	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	Clean affected areas
