

Generate Pairing Code

Note: Parents/guardians can generate a pairing code with their students by logging in to the student account and accessing settings. The observers can enter the generated pairing code in their own accounts (See **Link Another Student to Observer Account**). You must create a separate pairing code for each observer who wants to link to a student account.

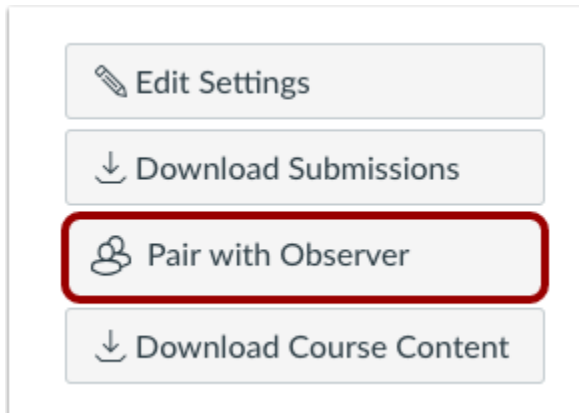

Open Settings

In Global Navigation, click the **Account** link [1], then click the **Settings** link [2].

Generate Pairing Code

Pair with Observer

Click the **Pair with Observer** button.

Copy Pairing Code

Copy the six-digit alphanumeric pairing code [1]. You will need to share the code with the observer who will link to your account. The pairing code will expire after seven days or its first use.

To close the window, click the **OK** button [2].

Note: Pairing codes are case sensitive.

Follow the directions to **Link Another Student to Observer Account** for the next steps.
