Parents:

Last school year we introduced a new way of scheduling Parent Teacher Conferences. We went digital with SignUpGenius.com. This change was successful and facilitated a lot of the planning for our parents. We will return to this digital format this year. Please read below for instructions on how to sign-up.

SignUpGenius.com is a website that is specifically designed for Parent-Teacher Conferences. Each family will have the opportunity to schedule their own times for Parent-Teacher Conferences from a variety of options. This program is all web-based and does not require the involvement of the office. Teachers will be posting the links on ClassDojo, Class Links, and on our School Website Homepage. The website is compatible on all platforms, cell phones and laptops.

The website links will go live on **Wednesday, November 7th at 3:00 p.m.**
Please follow the instructions below:

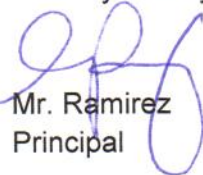

1. Check the teacher's ClassDojo, teacher's Class Link, or our school website for the active links to sign-up for conferences.
2. Check the schedule and select the "sign-up" button for your desired time.
3. Input the appropriate information and click submit.

****Parents with multiple children enrolled at our school****

Since appointments are first come, first serve, I suggest opening separate tabs for your children's classes to sign-up.

Important note: Teachers are not able to switch appointments for you, so please do not ask them to make changes. If you would like to make a change to your time you will have to relinquish your spot already reserved and select a new available spot.

Thank you for your cooperation and God bless!

Mr. Ramirez
Principal
