Students have 3 hours to complete each exam. If you are planning to take an exam for a high school course that encompasses 2 semesters, the test could last as long as 6 hours. However, students are allowed to work at their own pace and are free to begin the second exam once the first portion has been completed. Students are encouraged to bring a snack, if they wish to have something to eat. Once the student has completed the exam, he/ she is free to go.

**Materials needed:**

- Pencils
- Photo ID (school ID works well)
- If you are taking a mathematics exam for 8<sup>th</sup> grade or above, please bring a calculator and graph paper.

**Score Results:**

Typically we receive scores 10 - 14 days from the date of the exam. Language exams and English tests do take longer to receive results. Once the results are received, the District Testing Coordinator will notify both you and the school via email.
