Principal - Joseph Clausi

Happy 2019 ACE Families!!!

I wanted to start off by saying thank you to all of the ACE parents and staff that have assisted in making this fall semester, as successful as it was. The daily assistance from our ACE Parent Organization at times was the reason we functioned properly, and that dedication means the world to me and all of our students!

With the coming of 2019, we find ourselves half way through the year!!! Our first cohort of IB students in 11th grade have begun classes and embarking on this journey, and it has lifted our levels of engagement, rigor, and therefore motivation, to continue to define what it means to be successful at ACE Charter.

This spring semester brings more newness to our campus. We hope to complete the maker space and the new office. We are traveling internationally to the Dominican Republic. We are experiencing the new curricular demands of IB course work, and it has the halls always looking different and vibrant with new artistic student creations, every day.

Lest we forget ACE Robotics team 4711! Soon robotics will be in full swing and the team will be off and running in every direction possible for months and it's awesome! We're looking forward to their intense competitions where we take a bus load of students to cheer on the Flying Aces!!!

With recruitment season underway, IB classes taking over, robotics and career and technical education leading our motivational charge towards success, we invite everyone out to see our school and the accomplishments we brag about daily!

Thanks for making ACE, the school where we are reinventing the future, while honoring the past, since 2010.

Sincerely,

Joseph Clausi  
Principal
