Hello, Lydiksen Families -

It was brought to our attention last week that there were safety concerns related to a gate and fence area on the Lydiksen Elementary School campus.

I wanted to let all of our families know that the issue with the gate and fence area was resolved, and the Pleasanton Unified Maintenance Department will evaluate the area this week to determine if even more improvements can be made. Staff on supervision also ensured that no students left campus or were harmed in the gate and fence area.

Please know that campus safety is always of primary importance on our campus, and we take the supervision of all of our students very seriously. We will continue to work diligently as a campus staff to maintain a secure campus at all times.

Lastly, I encourage all Lydiksen families to review the contact information entered online in the Q Parent Connection while registering students to make sure that all information is accurate and up to date.

Thank you for your help and support in keeping Lydiksen a safe and secure place for everyone!

Jacob Berg

Principal, Lydiksen
