Science Club Goes to William Paterson to Tour Science Department

MANCHESTER REGIONAL HIGH SCHOOL

70 CHURCH STREET, HALEDON, NJ 07508
(973) 389-2821

After a fifty member meeting last Monday in room 111, Science Club went to William Paterson on 11/13/18 to tour the science department. They had a fabulous time seeing the rat lab, greenhouse, and scanning electron microscope. They were able to ask questions and see all the William Paterson Science Department has to offer! It was an amazing trip! Dr. Slaymaker, the head of the department, commended Ms. Beres on how well behaved the group was and the amazing questions they asked! Also, thank you to Chrystena Hahn, our WPU Professor in Residency, for joining in on the experience!

MRHS Celebrates World Kindness Day on 11/13/18

World Kindness Day is celebrated annually on November 13th. It was on this day that students from the Manchester Program decided to display an act of kindness by posting encouraging, uplifting, and inspirational words on the lockers of their peers. One student said, "that is the kindest thing that anyone has ever done" and she was happy. That just goes to show you that one random act of kindness can uplift someone who may need a little encouraging. Thank you to The Manchester Program students and staff for inspiring us to be kind.

The Falcon's Lounge also hosted the movie Wonder after school hours with follow up discussion of relevant themes.
