Madrid Community School District will remain closed through April 30th. Madrid schools are working to provide educational opportunities for all students during this school closure. At this time, PreK-8th graders will continue to learn through voluntary enrichment opportunities. 9th-12th graders will be shifting to required learning.

K-8 Voluntary Enrichment Opportunities

The learning opportunities for K-8 will look similar to what has been offered, but more specific to grade level and essential learnings.

We have created a district website dedicated to these resources and communication.

Teachers will be uploading student resources and voluntary enrichment opportunities for all students in grades PreK-8.

- PreK-8th Grade teachers will continue to reach out to students through SeeSaw, DoJo, and email.
- In addition to grade level specific enrichment opportunities, there will also be a grade level appropriate packet that will be available for download or pick up.
- All resources are voluntary enrichment opportunities and will not be required or graded.
- Resources will be updated each Monday starting Monday, April 13.
