Judy Younts

October 1, 2018

To All Thomasville City Schools Staff,

SafeSchools, is a program that has created hundreds of web-based training to cover a variety of safety courses and trainings. SafeSchools gives our district a convenient and efficient way to train staff without disrupting the instructional day. The assigned trainings are not optional; however, there are many courses that you may take based on your own level of interest. Thomasville City Schools is requiring the courses to help reduce our number of accidents and incidents that negatively affect our employees.

Beginning this week, you will see scheduled web-based training modules that will be delivered to your Thomasville City Schools email account. The email will provide you with all the needed information that is required to complete the course. A link to SafeSchools can be found on the Thomasville City Schools website---Departments---Human Resources.
