Mr. Campione’s 6th Grade Social Studies
Final End of the Year Project

Objective: Groups will choose a topic, with the approval of the teacher, and work together to create a poster and presentation based on their topic.

The choices on topic include a topic we have not discussed this year so far (for example Ancient China or Ancient Rome, or a chapter we skipped on other topics).

After the topic is approved, students will work together, using their textbook as well as research from outside the textbook, to create a 10-minute presentation and a poster based on the topic chosen.

Students will present the topic based on what they learned to teach their classmates about the topic. Each group member will speak on the topic in each group for about 2 minutes.

If necessary, students will take notes about what they learned in the presentations will be collected at the end of the final class presentation for a quiz grade.

The following is needed from each group:
1) Poster about the chosen topic
2) 10 minute presentation to the class with each group member speaking
3) Breakdown of the jobs completed by each group member on the back of the poster.
4) Rubric handed in with each student’s name on a different rubric, their group’s topic, and the date.

Rubric for grading is located on the back of this direction sheet. Project will be worth 2 test grades or 200 points.
