Fall Days

It has been a great year so far at the Academy! Students (and staff) are doing well in the routine of a fresh new year.

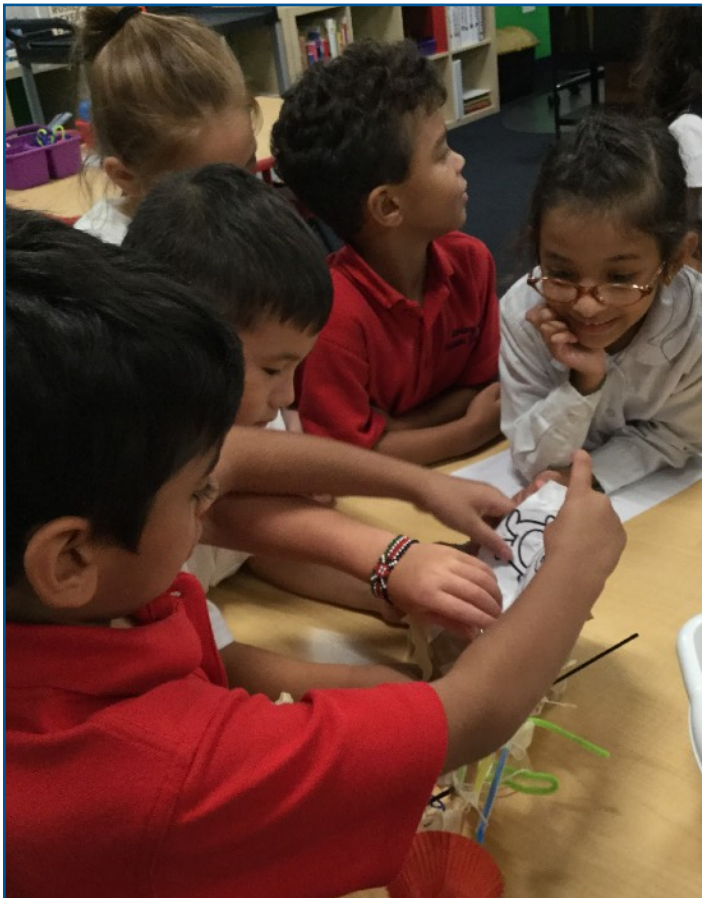

We have been thrilled to see our students and staff adapt so positively to some of the new and exciting changes that have been implemented this year! Our elementary students are doing a great job changing from class to class, our new teachers are getting settled, and STEAM has been a great adventure! We are looking forward to continuing on such a great track throughout the rest of this awesome school year!

After School Clubs

We have been having a BLAST with After School Clubs this year! ACE is thrilled to be partnering with DMV Chess Club and have already greatly benefitted from their expertise and resources. Our Chess Club students are learning a lot as they study the rules of chess, but also as they grow in developing problem solving skills, thinking, and working strategically.

It has been a great privilege to continue to work this year with SciGenius for our Java Coding with Minecraft, LEGO Robotics, and Science Clubs. Students have already explored different disciplines of science and engineering as they conduct experiments, create, and problem solve! Learning can be so much fun!!!

We are also pleased to be offering clubs to challenge our students to exercise and learn physical skills - through Tennis and Kids Brazilian Jiu Jitsu! We are proud to have such a wide variety of club offerings to ensure that is something for everyone!
