

2nd Grade Lottery Results 2019-2020

How to read the lottery results:

The following list is the results of the 2nd Grade lottery

Confirmation Numbers that are color coded gray indicate a "catchment" application. Confirmation numbers that are color coded white indicate a "non-catchment" application. Applications of any other color indicate an out of city application.

Seeing your number on this list does not indicate that you are being offered the opportunity to enroll. At the time of the lottery we have no seats available to offer for 2nd grade.

If any additional seats become available we will continue to offer from the general lottery list in the order it was drawn in the lottery based on our catchment requirements.
