Principal's Message

Opened in 1962, Ocean View School is located on a hilltop in a residential neighborhood, with a serene view of the Oceano Dunes and the Pacific Ocean. Single-family homes dominate the housing area surrounding the school site. Adjacent to the playground is a steep hill with a view of the Coastal Range. Students within our boundaries include those in the quaint Village of Arroyo Grande, the Rancho Grande Housing Development, and developments surrounding Paulding Middle School. The facilities include a large library, two computer labs, twenty-six classrooms, a multi-purpose room, and an outside picnic area. A large field and lower-level basketball court/handball area provide students an expansive play area. The cinder-block main buildings are equipped with a window wall and sliding doors that lead to colorful classroom gardens maintained by students and parent volunteers.

The school serves 619 students and a community where parent expectations are high. Parents are consistently involved in the education of their children. Staff and parental support for our school and students is exceptional. An active Parent Teacher Association (PTO) supports the school through fundraising events that are critical components in funding student field trips, instructional, and incentive programs. Annual cultural events support tradition and embrace the community. The Ocean View School Site Council also gives parents the opportunity to participate in decision-making on campus. PTO and School Site Council provide expanded learning opportunities for all students, such as: cultural assemblies, family educational nights, field trips, classroom presenters, busing, and the Reading Counts Program. Our volunteers work in classrooms, work on PTO and School Site Council Boards, help with school beautification, act as room parents. More than 200 parents and community member volunteers log approximately 5,000 hours per year. The student handbook, optional parent surveys, PTO meetings, School Site Council meetings, classroom newsletters, and the Ocean View website and Facebook page are tools used to inform parents and community groups of current events.

Ocean View serves all of its students in a positive learning environment. State test scores are above the state average with all students earning a Green ranking in both ELA and Math on the California Schools Dashboard. Common Core Standards and Next Generation Science Standards are taught through unique and creative units utilizing Project Based Learning embedding S.T.E.A.M. and Thinking Maps.

Special programs such as Gifted and Talented identification, Bully Prevention, resource services, speech, before/after school tutoring, Services Affirming Family Empowerment System of Care, Project Wisdom, 4th/5th Music, 6th grade band, and an accelerated math class are some of the avenues utilized to meet student needs. Students are challenged to achieve and excel in various activities throughout the year. Activities at Ocean View include GATE, PTO's Art in Motion, Destination ImagiNation Teams, Robotics, community service club contests, art/dance/coding classes, yearly talent show, and additional enrichment programs. The City of Arroyo Grande provides on campus before and after-school care for Ocean View Students. Partnerships between the school and community are strong. Cal Poly State University, Allan Hancock College, PG&E, Learning Among the Oaks (LATO), San Luis Obispo Land Conservancy, One Cool Earth, and ECOSLO all enhance the educational experience for our students. In addition, Ocean View has the support of many area businesses.

Ocean View Elementary celebrated its 50th Year Anniversary in December 2012.

Ocean View Elementary School Vision: Leaders in STEAM Education.

Ocean View Elementary School Mission Statement: We empower students to become productive global citizens who exemplify compassion, perseverance, and innovation.

About the SARC

By February 1 of each year, every school in California is required by state law to publish a School Accountability Report Card (SARC). The SARC contains information about the condition and performance of each California public school. Under the Local Control Funding Formula (LCFF) all local educational agencies (LEAs) are required to prepare a Local Control and Accountability Plan (LCAP), which describes how they intend to meet annual school-specific goals for all pupils, with specific activities to address state and local priorities. Additionally, data reported in an LCAP is to be consistent with data reported in the SARC.

- For more information about SARC requirements, see the California Department of Education (CDE) SARC web page at <https://www.cde.ca.gov/ta/ac/sa/>.
- For more information about the LCFF or LCAP, see the CDE LCFF web page at <https://www.cde.ca.gov/fg/aa/lc/>.
- For additional information about the school, parents/guardians and community members should contact the school principal or the district office.

Quality, Currency, Availability of Textbooks and Instructional Materials (School Year 2019-20)

Lucia Mar Unified School District held a public hearing Sept. 18, 2018, and determined each school within the District has sufficient and good-quality textbooks, instructional materials, or science lab equipment pursuant to the settlement of Williams v. the State of California. All students, including English Learners, are given their own individual Standard aligned textbooks or instructional materials, or both, in core subjects for use in the classroom and to take home. All textbooks and instructional materials used within the District are aligned with the California State Content Standards and Frameworks and have been approved by the Board of Education. Lucia Mar Unified School District follows the State’s seven-year adoption cycle. Auxiliary materials, such as math manipulatives, trade books, and science kits, are also purchased to support the textbook adoption.

School Facility Conditions and Planned Improvements (Most Recent Year)

Ocean View Elementary School provides a safe, clean, and attractive environment for learning. Built in 1962, and later modernized, Ocean View Elementary School is situated on nine acres. The school buildings span 36,822 square feet and consist of 27 classrooms, a library media center, a fully equipped technology center, a multipurpose room, tutoring room, resource room, and administrative offices. The facility strongly supports teaching and learning through its ample classroom and playground space.

Albertsons sponsored a major beautification project at the school in spring of 2012 and Spring of 2014. Nearly 250 volunteers painted the handrails and trim, planted greenery, and cleaned all around the fields, giving the school a fresh new look. In the spring of 2016, we received support from One Cool Earth, our site student ECO squad and families in creating an ECO garden outside of our campus library. New pavers and asphalt were laid in the quad area over the Summer of 2017. A new Outdoor Learning Center (OLC) is currently in the planning stages.

Ocean View Elementary School is a closed campus. Many people visit the campus to volunteer in the classroom and participate in school events. Parents and visitors are welcomed and required to check-in at the school office upon arrival and obtain a visitor's badge; visitors are required to return to the school office upon departure. During lunch, recesses, and before and after school, adults supervise students and school grounds, such as the cafeteria and recreation area, to ensure a safe and orderly environment.

Safety concerns are the No. 1 priority of maintenance and operations. District maintenance supervisors are proactive and conduct inspections at school sites on a continual basis. Repairs necessary to keep the school in good repair and working order are completed in a timely manner. A work-order process is used to ensure efficient service and that emergency repairs are given the highest priority. The District maintenance staff has indicated that 100 percent of all toilets on school grounds are in working order.

A team of custodians ensures classrooms, campus grounds, and restrooms are kept clean and safe. A scheduled maintenance program is administered by Lucia Mar Unified School District to ensure that all classrooms and facilities are well maintained and provide a suitable learning environment. A summary of these standards is available at the school office or at the District office.

B. Pupil Outcomes

State Priority: Pupil Achievement

The SARC provides the following information relevant to the State priority: Pupil Achievement (Priority 4):

- Statewide assessments** (i.e., California Assessment of Student Performance and Progress [CAASPP] System, which includes the Smarter Balanced Summative Assessments for students in the general education population and the California Alternate Assessments [CAAs] for English language arts/literacy [ELA] and mathematics given in grades three through eight and grade eleven. Only eligible students may participate in the administration of the CAAs. CAAs items are aligned with alternate achievement standards, which are linked with the Common Core State Standards [CCSS] for students with the most significant cognitive disabilities); and
- The percentage of students who have successfully completed courses that satisfy the requirements for entrance to the University of California and the California State University, or career technical education sequences or programs of study

| ELA | 78 | 74 | 54 | 56 | 50 | 50 |
| Math | 61 | 69 | 39 | 42 | 38 | 39 |

Note: Percentages are not calculated when the number of students tested is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

Note: ELA and mathematics test results include the Smarter Balanced Summative Assessment and the CAA. The "Percent Met or Exceeded" is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3–Alternate) on the CAAs divided by the total number of students who participated in both assessments.

C. Engagement

State Priority: Parental Involvement

The SARC provides the following information relevant to the State priority: Parental Involvement (Priority 3):

- Efforts the school district makes to seek parent input in making decisions for the school district and each school site

Opportunities for Parental Involvement (School Year 2019-20)

Parents and the community are very supportive of Ocean View Elementary School. They are encouraged to become involved in their child's education in numerous ways such as participating in parent education activities, attending student presentations and functions, volunteering in the classroom, becoming room parents, participating in campus beautification projects, and chaperoning field trips. Organized groups for parent involvement include the Parent-Teacher Organization (PTO), School Site Council (SSC), and Student Study Team (SST).

Parents and community members are invited to many school activities and events held throughout the year including but not limited to Back-to-School Night, Walk-to-School events, Red Ribbon Week, Harvest Parade, the annual PTO Dinner and Auction, various project-based learning activities/exhibitions, Be Unique Week, Annual Talent Show, ECO Week, Full STEAM Ahead Week, and Open House. Parent education events focus on linking parents to current student issues. Ocean View Elementary School maintains many channels of communication with the home and community to keep them apprised of school activities. The Cougar Chronicle newsletter is available online and printed by request, the PTO maintains an effective website, and Ocean View has its own website and Facebook page. In addition, all parents are invited to PTO general membership meetings three times a year.

PTA fundraisers and other contributions from the community greatly enhance the educational program at the school. PTO and community resources help fund a Literacy Support Tutor, classroom gardens, classroom technology and tech support, classroom enrichment monies, Destination ImagiNation, Art in Motion Program, Readers Counts program, Anti-Bully/Character Education, library renovations, Outdoor Learning Center construction, and GATE & STEAM activities.

Over 400 organization, business, and individual donors have supported Ocean View Elementary School's programs in the past year including PG&E, Target, Albertson's, South County Education Foundation, Women in Agriculture, Cal Poly, Allan Hancock College, and the Arroyo Grande Children in Motion. The school is grateful for our supportive parents and community.

For more information on how to become involved at the school, please contact Principal Brad Grumbles at (805) 474-3730.

State Priority: School Climate

The SARC provides the following information relevant to the State priority: School Climate (Priority 6):

- Pupil suspension rates;
- Pupil expulsion rates; and
- Other local measures on the sense of safety.

School Safety Plan

The Comprehensive Safe School Plan was developed by the District to comply with Senate Bill 187 (SB 187) of 1997. The Plan provides students and staff a means of ensuring a safe and orderly learning environment. Each school includes the following requirements of SB 187 within their Safe School Plans: current status of school crime; child abuse reporting procedures; disaster procedures, both routine and emergency; policies related to suspension and expulsion; notification to teachers; sexual harassment policy; provision of a schoolwide dress code; safe ingress and egress of pupils, parents, and school employees; safe and orderly school environment; and school rules and procedures.

The school evaluates the plan annually and updates it as needed. Safety procedures, including elements of the Safe School Plan, are reviewed with school and District staff in the fall, at the start of each school year. The Injury, Illness & Prevention Plan was last updated and reviewed with school staff in October 2019.

| Suspensions and Expulsions for the School | 2016-17 | 2017-18 | 2018-19 |

|---|---------|---------|---------|
| Number of school days dedicated to Staff Development and Continuous Improvement | 38 hrs | 38 hrs | 38 hrs |

Lucia Mar invests time and resources to ongoing, district-wide staff development in key initiative areas aligned to district goals to increase student achievement and support school improvement. Each school year our professional development focused on California Common Core State Standards, 21st Century Skills, English Learners, and best practices in using technology for instruction/ assessment.

Professional development opportunities are provided in a variety of ways — one district-wide staff development day, weekly late-start Mondays, staff meetings, release time, Saturday trainings, and summer institutes. Over the last three years, teachers have received at least 24 days of professional development in each school.

In the 14-15 school year LMUSD created a research driven professional development model. Each school site has a Late Start Monday, an Instructional Leadership Team comprised of teachers and administrators, and Teacher Support TOSAs. The combination of these three has resulted in high quality, weekly professional development.

Career Technical Education Programs

The Board of Education realized that students have varying academic interests and aptitudes, and that they need to be better prepared for options other than a four-year university directly from high school, particularly in light of the rapidly changing workforce technology and employment environments in many industry sectors. Therefore, the Board of Education sought to support Programs of Study to ensure that all students graduating from the Lucia Mar Unified School District have the preparation necessary for success in any post-secondary pursuit, whether it is university studies, technical training, workforce placement, military enlistment, or service as a community volunteer.

As vocational education evolved in the 21st century, it became known as Career Technical Education (CTE). Business owners, trade union leaders and educators came together to change how occupational and technical subject matter were delivered in high school, college and technical training environments. This resulted in the need to develop robust and rigorous curriculum provided in a cyclical continuum that engages participants in the most common tasks and skills required in a broad umbrella of employment opportunities within a specific industry sector. High School Career Pathways provide the first two to three years of instruction and skill development in this scenario.

Pathway programs in LMUSD are designed so that students are able to gain at least one industry certification, or equivalent skill measurement, to provide a competitive advantage in the job market. Additionally, curriculum will coincide with community college career certificate and associate degree programs in same/similar industry areas and in some cases allow students to earn college credit for their coursework while still in high school. This will shorten the time it takes students to earn post-secondary degrees/certificates and enter the skilled workforce. The California Department of Education gives guidance for the design of model CTE programs in their plan for Career Technical Education, which was adopted by the State Board of Education in 2008.

The same quality program indicators were taken into consideration during the development of career pathway programs of study for LMUSD. Specifically, the focus of pathway preparation has been on assessing current programs and facilities, establishing relationships with industry members and assembling advisory committees for new programs, reviewing and developing curriculum, reviewing instructor training needs, determining outreach/communication needs, and researching funding options for new and existing pathway programs.

The Director of CTE provides direct support to instructors, pathway programs, and site administration in the areas of curriculum, facility and equipment, postsecondary alignment, industry partnerships, and overall pathway focus. CTE teachers participate in professional development to stay up to date with changes in industry by attending workshops, conferences, and other training opportunities. Additionally, CTE instructors focus on pathway development and philosophy, which include California State CTE Frameworks and model standards, as well as funding legislation that affects the structural make up of CTE programs. This baseline of CTE supports has continued to improve annually in the support of current programs that are functioning well, retooling programs that have minor areas of weakness, building out viable pathways from programs that currently function as a single course, and establish new programs where programs do not exist but there is a regional workforce need.

Several CTE programs participate in Career Technical Student Organization (CTSO) activities and competitions through the Future Farmers of America (FFA), SkillsUSA, and HOSA. The Culinary Arts, Agriculture, Design, Visual, Media Arts, and Animation programs have all had regional contest student winners, who competed in the various categories at the state level. Industry recognized certifications include CPR, First Aid, Food Handlers, Serv Safe, Adobe, and CAD. Students also have the opportunity to earn college credit toward a degree within their field of study and some pathways offering multiple college courses. Additionally, students are able to build resumes and portfolios with unique projects that demonstrate their level of expertise with industry desired skills. Through continually expanding internship programs available in various pathways, students are able to gain real world experience within their field of study that often times leads to employment.

Addressing the CTE needs of all students

All ninth-grade students have the opportunity to take a “Tech Seminar” class and meet with career counselors where they identify personal interests, explore career options, develop academic plans, and learn about post-secondary educational and training opportunities. Students may develop advanced skills and receive industry-standard training by participating in the various vocational/technical courses at all sites. These courses prepare students for future college coursework and entry-level job opportunities.

Evaluating CTE Programs

Each CTE Pathway maintains an active business advisory committee that evaluates the program. In addition, school and district administrators monitor the program and instructors effectiveness on an annual basis. All CTE Pathways require a two- or three-course articulated curriculum that will meet job market expectations providing students with a minimum of 300 hours of industry specific curriculum aligned to both post-secondary education options and high demand, high wage careers.

DataQuest

DataQuest is an online data tool located on the CDE DataQuest web page at <https://dq.cde.ca.gov/dataquest/> that contains additional information about this school and comparisons of the school to the district and the county. Specifically, DataQuest is a dynamic system that provides reports for accountability (e.g., test data, enrollment, high school graduates, dropouts, course enrollments, staffing, and data regarding English learners).

Internet Access

Internet access is available at public libraries and other locations that are publicly accessible (e.g., the California State Library). Access to the Internet at libraries and public locations is generally provided on a first-come, first-served basis. Other use restrictions may include the hours of operation, the length of time that a workstation may be used (depending on availability), the types of software programs available on a workstation, and the ability to print documents.
