School Description

"The mission of Paulding is to engage, challenge and inspire our students by creating dynamic learning experiences that prepare them to be successful citizens. Paulding Middle School was recognized as a California Distinguished School in 2019. The school is divided into two seventh grade teams and two eighth grade teams which handle the current population of 627 students. Teaming, response to intervention (RTI) and a daily seminar class are major contributing factors that function to highlight student achievement. The 27 classroom campus includes a Library Learning Commons (LLC), a gymnasium, locker rooms, band room and an administration building. Paulding has a response to intervention (RTI) system with a series of increasing interventions for students who need academic and behavioral assistance. All students who are two or more years below grade level in language arts or mathematics are enrolled in intervention courses. Students designated as English Language Learners (ELL) are enrolled in supplemental language arts courses. Special education classes provide help for qualified students and are mainstreamed into as many regular education classes as possible. A school nurse, speech therapist and district psychologist are also available to students. All of the resources at Paulding are used to make sure that every student is engaged, challenged and inspired. Our goals for the academic year are for students to make annual growth in language arts and mathematics. For students enrolled in our intervention program, our goal is for those students to make more than one year of academic growth. In addition, our school-wide culture goal is for students and staff to utilize the Paulding Pride Tier I PBIS system to increase student involvement and to reduce assertive discipline from the prior school year. Paulding uses a promotes positive praise for students and seeks to utilize five-times more positive reinforcement than correctives. Students earn points/scan for their positive academic and social behaviors using the 5-Star Scan system. Students can redeem these points for various activities and items in our Patriot Student Store.

About the SARC

By February 1 of each year, every school in California is required by state law to publish a School Accountability Report Card (SARC). The SARC contains information about the condition and performance of each California public school. Under the Local Control Funding Formula (LCFF) all local educational agencies (LEAs) are required to prepare a Local Control and Accountability Plan (LCAP), which describes how they intend to meet annual school-specific goals for all pupils, with specific activities to address state and local priorities. Additionally, data reported in an LCAP is to be consistent with data reported in the SARC.

- For more information about SARC requirements, see the California Department of Education (CDE) SARC web page at <https://www.cde.ca.gov/ta/ac/sa/>.
- For more information about the LCFF or LCAP, see the CDE LCFF web page at <https://www.cde.ca.gov/fg/aa/lc/>.
- For additional information about the school, parents/guardians and community members should contact the school principal or the district office.

A. Conditions of Learning

State Priority: Basic

The SARC provides the following information relevant to the State priority: Basic (Priority 1):

- Degree to which teachers are appropriately assigned and fully credentialed in the subject area and for the pupils they are teaching;
- Pupils have access to standards-aligned instructional materials; and
- School facilities are maintained in good repair

Quality, Currency, Availability of Textbooks and Instructional Materials (School Year 2019-20)

Lucia Mar Unified School District held a public hearing Sept. 18, 2018, and determined each school within the District has sufficient and good-quality textbooks, instructional materials, or science lab equipment pursuant to the settlement of Williams v. the State of California. All students, including English Learners, are given their own individual Standard aligned textbooks or instructional materials, or both, in core subjects for use in the classroom and to take home. All textbooks and instructional materials used within the District are aligned with the California State Content Standards and Frameworks and have been approved by the Board of Education. Lucia Mar Unified School District follows the State’s seven-year adoption cycle. Auxiliary materials, such as math manipulatives, trade books, and science kits, are also purchased to support the textbook adoption.

School Facility Conditions and Planned Improvements (Most Recent Year)

Paulding Middle School provides a safe, clean environment for learning. Built in 1962 and modernized in 2002, Paulding Middle School is situated on 14 acres. The school buildings span 53,207 square feet, consisting of 23 classrooms, a library, a gymnasium, locker rooms, a music room, kitchen, administrative office, and a Learning Commons.

Improvement projects recently completed at the school include: painting the exterior of the school, new flexible furniture, expansion of wireless internet across the whole campus, expansion of Chromebooks computers to over 600 student devices, creation of two special education classrooms created from a former library space and partial conversion of the MPR into a Library Learning Commons (LLC). Planned improvements include the installation of new classroom buildings.

The school facilities are cleaned daily by a custodial staff of 2.5 persons. One is full-time during the day, another is full time in the evening and a third is shared with other sites.

Paulding Middle School is a closed campus. Students are not allowed to leave the campus during the day without a parent or adult. Students experience a safe environment at the school through high behavior expectations and a large number of staff that supervise public areas of the campus before, at break, at lunch, and after school. The students participate in academic and social-emotional character building through participation in a daily advisory program.

Parents and visitors are welcomed and required to check-in at the school office upon arrival and obtain a visitor’s badge; visitors are required to return to the school office upon departure. During lunch, recesses, and before and after school, adults supervise students and school grounds, such as the cafeteria and recreation area, to ensure a safe and orderly environment.

Safety concerns are the No. 1 priority of maintenance and operations. District maintenance supervisors are proactive and conduct inspections at school sites on a continual basis. Repairs necessary to keep the school in good repair and working order are completed in a timely manner. A work-order process is used to ensure efficient service and that emergency repairs are given the highest priority. The District maintenance staff has indicated that 100 percent of all toilets on school grounds are in working order.

A team of custodians ensures classrooms, campus grounds, and restrooms are kept clean and safe. A scheduled maintenance program is administered by Lucia Mar Unified School District to ensure that all classrooms and facilities are well maintained and provide a suitable learning environment. A summary of these standards is available at the school office or at the District office.

B. Pupil Outcomes

State Priority: Pupil Achievement

The SARC provides the following information relevant to the State priority: Pupil Achievement (Priority 4):

- **Statewide assessments** (i.e., California Assessment of Student Performance and Progress [CAASPP] System, which includes the Smarter Balanced Summative Assessments for students in the general education population and the California Alternate Assessments [CAAs] for English language arts/literacy [ELA] and mathematics given in grades three through eight and grade eleven. Only eligible students may participate in the administration of the CAAs. CAAs items are aligned with alternate achievement standards, which are linked with the Common Core State Standards [CCSS] for students with the most significant cognitive disabilities); and
- The percentage of students who have successfully completed courses that satisfy the requirements for entrance to the University of California and the California State University, or career technical education sequences or programs of study

Math	41	43	39	42	38	39

Note: Percentages are not calculated when the number of students tested is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

Note: ELA and mathematics test results include the Smarter Balanced Summative Assessment and the CAA. The "Percent Met or Exceeded" is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3–Alternate) on the CAAs divided by the total number of students who participated in both assessments.

C. Engagement

State Priority: Parental Involvement

The SARC provides the following information relevant to the State priority: Parental Involvement (Priority 3):

- Efforts the school district makes to seek parent input in making decisions for the school district and each school site

Opportunities for Parental Involvement (School Year 2019-20)

Parents and the community are very supportive of the programs at Paulding Middle School. Parents may become involved in their child's education by volunteering in the classroom and participating on the school's various committees and councils. Organized groups for parent involvement include the Parent-Teacher-Student Organization (PTSO), School Site Council (SSC) and the English Learner Advisory Committee (ELAC).

The school communicates regularly with the home regarding school activities and the academic progress of students. A daily binder reminder is sent home with homework assignments and teacher correspondence. Parents have access to Homelink, which is a Web-based program that allows parents to see the teacher's role book for grades, homework, and attendance. The school also communicates with parents and community using social and digital media.

All teachers have access to e-mail and communicate frequently using this method with parents and students.

PTSO fundraisers and other contributions from the community greatly enhance the educational program at the school. Parents who wish to volunteer or participate in Paulding Middle School's committees and school activities may contact the main office at (805) 474-3500.

State Priority: School Climate

The SARC provides the following information relevant to the State priority: School Climate (Priority 6):

- Pupil suspension rates;
- Pupil expulsion rates; and
- Other local measures on the sense of safety.

School Safety Plan

The Comprehensive Safe School Plan was developed by the District to comply with Senate Bill 187 (SB 187) of 1997. The Plan provides students and staff a means of ensuring a safe and orderly learning environment. Each school includes the following requirements of SB 187 within their Safe School Plans: current status of school crime; child abuse reporting procedures; disaster procedures, both routine and emergency; policies related to suspension and expulsion; notification to teachers; sexual harassment policy; provision of a school-wide dress code; safe ingress and egress of pupils, parents, and school employees; safe and orderly school environment; and school rules and procedures.

The school evaluates the plan annually and updates it as needed. Safety procedures, including elements of the Safe School Plan, are reviewed with school and District staff in the fall, at the start of each school year.

Types of Services Funded

Lucia Mar offers a comprehensive range of programs and services to support student learning. A strong core curriculum is taught by highly qualified teachers. Student learning is monitored closely. Proficient and advanced students are challenged to master skills at the highest levels. Students not yet proficient are supported with additional time and instructional support. Academic support is provided during the school day and after school. Social and emotional support is provided to eliminate barriers to academic success.

Academic support services:

- Standards-based instructional materials
- New teacher support
- Staff development
- Intervention programs
- Intensive instructional services
- English language development
- Title I, Response to Intervention
- Students with disabilities
- After school programs

Social and emotional support services:

- Counseling support
- Intensive counseling services
- Mental Health early prevention
- Safe Schools
- Referrals to Community Agencies
- Positive Behavior Interventions & Supports program (PBIS)

Comprehensive academic and social support services enable Lucia Mar students to achieve at high levels in school and life.

Career Technical Education Programs

The Board of Education realized that students have varying academic interests and aptitudes, and that they need to be better prepared for options other than a four-year university directly from high school, particularly in light of the rapidly changing workforce technology and employment environments in many industry sectors. Therefore, the Board of Education sought to support Programs of Study to ensure that all students graduating from the Lucia Mar Unified School District have the preparation necessary for success in any post-secondary pursuit, whether it is university studies, technical training, workforce placement, military enlistment, or service as a community volunteer.

As vocational education evolved in the 21st century, it became known as Career Technical Education (CTE). Business owners, trade union leaders and educators came together to change how occupational and technical subject matter were delivered in high school, college and technical training environments. This resulted in the need to develop robust and rigorous curriculum provided in a cyclical continuum that engages participants in the most common tasks and skills required in a broad umbrella of employment opportunities within a specific industry sector. High School Career Pathways provide the first two to three years of instruction and skill development in this scenario.

Pathway programs in LMUSD are designed so that students are able to gain at least one industry certification, or equivalent skill measurement, to provide a competitive advantage in the job market. Additionally, curriculum will coincide with community college career certificate and associate degree programs in same/similar industry areas and in some cases allow students to earn college credit for their coursework while still in high school. This will shorten the time it takes students to earn post-secondary degrees/certificates and enter the skilled workforce. The California Department of Education gives guidance for the design of model CTE programs in their plan for Career Technical Education, which was adopted by the State Board of Education in 2008.

The same quality program indicators were taken into consideration during the development of career pathway programs of study for LMUSD. Specifically, the focus of pathway preparation has been on assessing current programs and facilities, establishing relationships with industry members and assembling advisory committees for new programs, reviewing and developing curriculum, reviewing instructor training needs, determining outreach/communication needs, and researching funding options for new and existing pathway programs.

The Director of CTE provides direct support to instructors, pathway programs, and site administration in the areas of curriculum, facility and equipment, postsecondary alignment, industry partnerships, and overall pathway focus. CTE teachers participate in professional development to stay up to date with changes in industry by attending workshops, conferences, and other training opportunities. Additionally, CTE instructors focus on pathway development and philosophy, which include California State CTE Frameworks and model standards, as well as funding legislation that affects the structural make up of CTE programs. This baseline of CTE supports has continued to improve annually in the support of current programs that are functioning well, retooling programs that have minor areas of weakness, building out viable pathways from programs that currently function as a single course, and establish new programs where programs do not exist but there is a regional workforce need.

Several CTE programs participate in Career Technical Student Organization (CTSO) activities and competitions through the Future Farmers of America (FFA), SkillsUSA, and HOSA. The Culinary Arts, Agriculture, Design, Visual, Media Arts, and Animation programs have all had regional contest student winners, who competed in the various categories at the state level. Industry recognized certifications include CPR, First Aid, Food Handlers, Serv Safe, Adobe, and CAD. Students also have the opportunity to earn college credit toward a degree within their field of study and some pathways offering multiple college courses. Additionally, students are able to build resumes and portfolios with unique projects that demonstrate their level of expertise with industry desired skills. Through continually expanding internship programs available in various pathways, students are able to gain real world experience within their field of study that often times leads to employment.

Addressing the CTE needs of all students

All ninth-grade students have the opportunity to take a “Tech Seminar” class and meet with career counselors where they identify personal interests, explore career options, develop academic plans, and learn about post-secondary educational and training opportunities. Students may develop advanced skills and receive industry-standard training by participating in the various vocational/technical courses at all sites. These courses prepare students for future college coursework and entry-level job opportunities.

Evaluating CTE Programs

Each CTE Pathway maintains an active business advisory committee that evaluates the program. In addition, school and district administrators monitor the program and instructors effectiveness on an annual basis. All CTE Pathways require a two- or three-course articulated curriculum that will meet job market expectations providing students with a minimum of 300 hours of industry specific curriculum aligned to both post-secondary education options and high demand, high wage careers.

DataQuest

DataQuest is an online data tool located on the CDE DataQuest web page at <https://dq.cde.ca.gov/dataquest/> that contains additional information about this school and comparisons of the school to the district and the county. Specifically, DataQuest is a dynamic system that provides reports for accountability (e.g., test data, enrollment, high school graduates, dropouts, course enrollments, staffing, and data regarding English learners).

Internet Access

Internet access is available at public libraries and other locations that are publicly accessible (e.g., the California State Library). Access to the Internet at libraries and public locations is generally provided on a first-come, first-served basis. Other use restrictions may include the hours of operation, the length of time that a workstation may be used (depending on availability), the types of software programs available on a workstation, and the ability to print documents.
