

## BOND OVERSIGHT COMMITTEE

The West Valley School District is accepting applications for West Valley citizens to serve on a Bond Issue Oversight Committee, which will assist in providing oversight for the recently passed Construction Bond Issue to build two new elementary schools – Apple Valley and Summitview.

The District is excited to start planning for the construction of two new elementary schools. As this project commences and through delivery of these schools, and to ensure that delivery of the project is as intended, the District seeks additional assistance and engagement in for form of a team of 5 West Valley Community members, making up a Bond Oversight Committee, who will have the opportunity to be engaged in this process.

Members of the Bond Oversight Committee may be expected to (e.g. receive and review emails and correspondence regarding the projects, verify completions, and provide updates throughout the process regarding the project). These may be as frequent as a monthly basis. We are also interested ideally in qualifications and experience in the building industry (i.e. Construction, Banking, Project Management, Engineering, Architecture, etc.)

Please contact Superintendent Mike Brophy at 972-6005, or [brophym@wvvsd208.org](mailto:brophym@wvvsd208.org) with questions. The included application is on the next page and can be emailed to Mike Brophy for consideration. The deadline to apply is April 23, 2019 and selections and formation of the committee will be announced on April 30, 2019.

Thank you for your consideration.
