

Hello Thrive Community:

Today at the State Board of Education meeting I was proud to stand with Thrive students, teachers, parents and community supporters to make our case to the board for our school renewal. Thrive showed unprecedented support never before seen at the State Board and made our case well.

Unfortunately, the State Board failed to act. They were unable to reach a majority of the board to either deny or approve our renewal. As a result, the State Board believes that the prior decision from the San Diego Unified School District to deny our renewal then stands.

We are not giving up. We believe we still have a number of options that we need to discuss with our charter school board and legal counsel in the coming days. We promise to keep you updated with any new information as soon as possible.

In the meantime, school will continue and our teachers and leaders are here to answer your questions and to support you and your students.

As ever, in community,

Nicole Assisi

CEO
