Addendum #2

E-RATE 470 NETWORKING EQUIPMENT - FLINT COMMUNITY SCHOOLS

*Note: The District has modified the response to Question 3 on Addendum #1. Please see the updated response below.*

Thursday, January 31, 2019

**Question 3:** The switches you identified in the RFP support 10GB connections but no SFP/SFP+ modules are specified. Do you want us to specify SFP/SFP+ modules and Fiber Patch Cables to replace the existing optics? If so, can we get a list of the types and quantities required?

*Not all of our buildings are on 10G connection. Currently, only two buildings are on 10G, and the rest of the buildings are on 1-2G connection. We do have SFPs and fiber patch cables available and do not need any at this time.*
