

Health Services

Pearl Harbor Kai has a Health Aide to assist with illness or injuries. If a student comes to school ill, becomes ill or injured during the day, parents will be contacted to pick up their child. Physician's permission note is required for return after communicable diseases (Hawaii State Law):

- Strep Throat
- Conjunctivitis (Pink Eye)
- Scarlet Fever
- Hepatitis
- Impetigo
- Hand, Foot, and Mouth Disease
- Chicken Pox: All blisters must be dry and scabbed over.

School personnel, except for Health Aide, Administrators and SASA cannot hold/administer medication. Students who require medication as prescribed by a doctor must have the Department of Health's approval (form can be obtained from Health Aide) before the Health Aide can hold/administer the medication. For more information, call our Health Aide at 421-4245, ext. 228.
