

LUMBERTON ISD IS PLEASED TO ANNOUNCE:

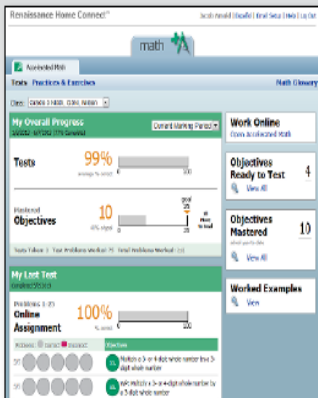

Renaissance Learning Home Connect!

Did you know you can see your child's Accelerated Reader or Accelerated Math information?

Information is shown only for products used in the student's classroom.

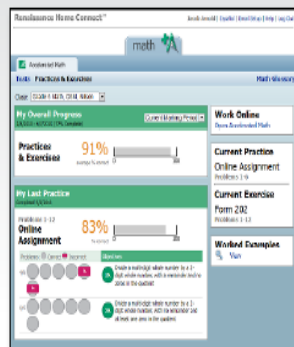

Tests

Renaissance Home Connect gives parents and students a snapshot of the student's Accelerated Math progress, including average percent correct on tests, number of math objectives mastered, and results of the last test.

Practice and Exercises

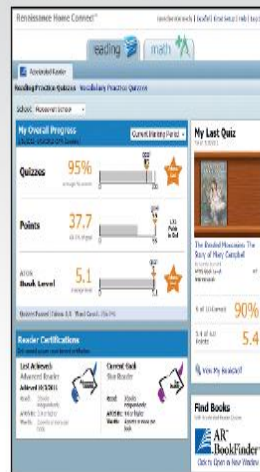

- If you have the scoring preference turned on, students can score practices and exercises from home when they open Accelerated Math.
- Students can search or browse for math terms and see a definition and example for each.
- Sample problems for each objective are provided to help students with their homework.

Information is shown only for products used in the student's classroom.

My Overall Progress

Renaissance Home Connect gives parents and students a snapshot of the student's Accelerated Reader progress, including average percent correct on quizzes, number of points earned, and ATOS book level.

My Bookshelf

Parents and students can see all the books the student has read. Clicking a book shows details about it such as book level, word count, points, and more.

Connecting Parents through Email

Parents click **Email Setup** and enter their name and email address to receive automatically generated emails (in English or Spanish) about their student's progress in reading and math. Emails are sent when the student takes an Accelerated Reader Quiz, takes an Accelerated Math test, or completes a MathFacts in a Flash level.

You may also set up email to receive automatic emails about your child's activity.

Parents may go to the Renaissance Home Connect link from the district website under **Students or under Parents/Current Parents tab**. See the attached page for further directions and individualized log in information. The parent's guide can also be found on our district website.
