Make a Video for your Judges
https://flipgrid.com/husd2020

Here is your chance to tell the judges about your project. Present your summary on the important points of your project. Here are a few questions you could answer: "How did you get the idea for your project? What is special or distinctive about your project? What is the next steps you would do with your results? How does your project impact society? Explain the experiential design steps of your project. What questions has your project generated? Be sure to present a clear and organized video.
