

READ to SUCCEED!

Keep reading... Keep learning!

Similar to the way parents help extend learning during the summer months, there are some great resources available to continue to support the development of your child's reading skills as we navigate these unique times.

Students in grades 6-8 can continue reading the novel they are studying in class – *A Long Walk to Water* (6), *The Giver* (7), or *Lord of the Flies* (8). We also recommend choosing a new reading selection from their favorite author!

There are also a number of great web-based learning resources for students including:

- [Scholastic Learn at Home](#)
- [Time for Kids](#)
- [Storyline Online](#)

Please designate 20-30 minutes per day for reading to your child, or for your child to read independently!

“Reading gives us someplace to go when we have to stay where we are.” – Mason Cooley

Fountain Valley School District

FVSD is committed to supporting the learning needs of students during school closures associated with the coronavirus (COVID-19).

Strength in Numbers!

There are excellent online tools that students can use to continue to grow their skills in math from home. Many are available to students for at no cost, including:

- [ST Math – which can be accessed through FVSD school websites](#)
- [Khan Academy Courses](#)
- [FunBrain Math Zone](#)
- [IXL.com content with limited free daily access](#)
- [Prodigy Math](#)
- [Illustrative Math](#)

“Life is a math equation. In order to gain the most, you have to know how to convert negatives into positives.”

Creativity StARTS Here!

Students of all ages love to be creative – and Art is a great way to express that creativity!

Set a time each day for your child to sing, practice an instrument, write a poem, draw, paint, or do a craft. Check out [parents.com](#) for fun art projects to do at home.

Or even better, go on a kid-friendly virtual tour of the [Getty Museum in Los Angeles](#), the [Boston Children’s Museum](#), or the [Metropolitan Museum of Art](#) in New York!

Preparing today’s youth for tomorrow’s future.

Explore Science and History!

FVSD students love to learn about science and history. Numerous websites that provide science- and history-related learning opportunities for students, including:

- [National Geographic for Kids](#)
- [Code.org](#) and [Hour of Code](#) provide great computer coding activities for students
- [OCDE’s Inside the Outdoors home activities webpage](#)
- [Scholastic Study Jams – Science!](#)
- [Virtual Field Trips through Discovery Education](#)
- Take a [virtual tour of the National Museum of Natural History](#)
