### Counseling Corner

- The philosophy of Red Shoe Living developed by Lonnie Mayne not only helps people to make a difference, but also gives them a reason to show up every day. His message is clear, simple, and powerful. Each of us can learn to recognize, notice, and point out the positive and the good. The first of the five pillars that guide this process is AWARENESS. This is the opportunity to pay attention, notice, and have the courage to participate. Awareness allows us to connect as human beings and focus on the individual. James Thurber said, "Let us not look back in anger, nor forward in fear, but around in awareness." Noticing the world around us is the first step to making a difference.
