Shorewood School District
Elementary Level Code of Conduct

The Shorewood School District believes that students will be people of strong character with a commitment to contribute to the common good. The District values students who develop and maintain habits that contribute to personal wellness. Specifically, the District expects students to: be ethical people, treat others with respect, be able to appropriately express and manage emotions, and understand and avoid risky behaviors. (Shorewood School Board Policies R-3 and R-4: Character and Citizenship and Wellness)

The Shorewood School District supports progressive discipline and will address each act of misconduct individually. Discussions will engage students, parents/guardians, and employees that may have been involved in or affected by the issue in order to determine the following:
- What actually happened
- Who was affected and to what extent
- Where the behavior occurred (on or off of school grounds)
- How substantial the disruption was to the school day
- How each participant will work to rectify the problem and correct future behaviors.

In the event an inappropriate behavior occurs, the behavior will be objectively investigated. Consequences, if necessary, will be progressive and relevant to the situation and grade level of the student(s) involved. These consequences will be determined by an administrator of the Shorewood School District.

Prior to administrative involvement, classroom teachers work closely with the student and other involved adults to support the student and their behaviors within the classroom setting. Proactive measures include, but are not limited to:

- Relationship Building
- Preferential Seating
- Parent Communication
- Check-in/out systems
- Private, classroom conversations
- Verbal and written reminders
- Classroom Crew/Culture Meetings
- Social Emotional Classroom Instruction
- Built in break plans
- Positive Reinforcement
- Personalized behavior charts

Our goal is to support our students in learning behaviors necessary for success in school and life. This process takes time, practice, and a strong partnership between home and school.

Identified in this document are two different “tiers” of offenses. Tier One Offenses have several suggested interventions and/or consequences. Tier Two Offenses are more egregious in nature and may have a different set of suggested interventions and/or consequences. After investigating a behavior offense, an administrator of the Shorewood School District will determine which behavior the offense falls within and determine which of the suggested intervention(s) and/or consequence(s) will occur. When selecting the appropriate intervention(s) and/or consequence(s), an administrator may choose one or multiple selections from the suggested list.
