**ADMINISTRATIVE COMMENTS/LEGISLATIVE REPORTS/ COMMITTEE
REPORTS**

Dr. Pickell congratulated everyone for a great Homecoming.

Espark powerpoint will be on website. We are moving in the right direction using technology in the classroom – cost is being validated by results.

Individual contract was for GSRP teacher – we were awarded another 18-student classroom. We are letting the county know that we wish to expand again, using building at St. Cyprian. Increase of preschool offerings is important in the State of Michigan.

A concern on the ballot is the marijuana proposal. Not sure how it affects student learning and student growth. We have information on the website. Need to think about how are we going to move forward if the proposal is approved. We need to make sure our population is educated on the drug policy.

School funding changes are also on the website – we will also attach some videos. Once the elections are done, we will push to get funding to levels that we need. Our educational system needs to have a new funding model. Proposal A was based on a strong Michigan economy, and there should be some modifications to our funding system.

School millage proposals are also on the website. We have a major opportunity to help our schools. Please get out and vote in the election.
