

Here is some additional information that may help you in making a decision about whether you would like to buy a MacBook for your student or rent it from the school.

The price to purchase a MacBook has many variables, much like buying a car. Generally, the operating system should be the most current and have a minimum of 4 g memory. The prices listed below are for new MacBooks with the educational discount.

[MacBook Air 11" screen \\$ 849.00](#)

[MacBook Air 13" screen \\$949.00](#)

The device may be purchased from any vendor. Some examples are:

[Apple \(online store or Apple Store\)](#)

[Best Buy](#)

[MacMall](#)

[Macconnection](#)

You may purchase a refurbished MacBook from [Apple](#) or from Apple's site on eBay. Refurbished units carry the same warranty as new units, but can cost up to \$200.00 less. As with new units, the operating system should be the most current available and have a minimum of 4 g memory. Please remember that taxes and shipping are not listed in these estimated prices.

You may want to consider waiting until July before you purchase. Apple often has back to school specials.
