

Spotswood High School

Invites you to a presentation on

Vaping: What Parents Need to Know

January 7, 2019 SHS Cafetorium 6:30pm

Current statistics show that 1 in 3 High School Students have tried vaping.

Currently there is an alarming trend in middle and high school students using vapes and becoming addicted to Nicotine. Most youth believe vaping fluid only contains water and flavoring. This program is designed to educate parents on current vaping trends.

Topics covered include:

- END/EID systems
- Harmful toxins/chemicals
- Diseases associated with vaping
- Marijuana concentrates and edibles
- Legal ramifications of possessing devices and/or paraphernalia.

Our speaker:

Nicki Francis, B.A.

Ms. Francis is responsible for identifying fee-for-service opportunities and implementing professional development programming in schools, agencies and other professional audiences in both Middlesex and Monmouth Counties.

Nicki is multi-certified in evidence-based prevention strategies and proficient in best practices for community-level change.

Expert in facilitating Alcohol, Tobacco and Other Drug education presentations, violence prevention workshops; designing prevention curriculum development and making appropriate program modifications to match needs of target population.
