

# Sanger Independent School District

601 Elm St., Sanger, Texas 76266

## **Sanger ISD extends closure through April 3, 2020**

Dear Sanger ISD Families,

Sanger ISD, along with neighboring school districts, is extending the closure of all schools and facilities through Friday, April 3. **Currently, all Sanger ISD campuses and facilities (including all athletic facilities) are closed.**

Sanger ISD administrators continue to closely monitor the ongoing health emergency created by the COVID-19 virus. Administrators have worked in concert with neighboring school districts and county officials to coordinate our response and decision in the best interest of the health of our students, staff, families, and communities. We hope that making this decision now will help you plan the next few weeks more effectively.

We know this is a challenging situation. Our staff is working diligently to prepare for online learning and other low-tech delivery methods so students can continue with their education while the district is not meeting face to face.

Sanger ISD will continue to monitor and evaluate the situation prior to reopening school on Monday, April 6 and will communicate across all platforms as updates become available.

All competitions and events, including school related and community based, that have been scheduled within the district between now and Sunday, April 5 are postponed.

### **Meals During the Closure**

**Beginning on Thursday, March 19, we will begin serving “curbside” breakfast and lunches at the Sixth Grade Center. During the hours of 10:00 a.m. to Noon, please pull up to the north side of the campus, along Peach Street, in the designated area and staff will deliver the daily meals to your vehicle. Contained in the meal will be a lunch for the day of pick-up and a breakfast for the following day. This service will be provided during weekdays at this location until future notice.**

Thank you for your continued support and understanding as this health emergency continues to evolve. Information is updated rapidly and we will continue to send out information as quickly as we can in the coming days.

Sincerely,

Dr. Hunter
