**Board Member Reports and Comments**

BOARD REPORTS AND COMMENTS

**Comments of Mrs. Dabbs**

Mrs. Dabbs welcomed everyone to the meeting. Commented on how excited she is to be starting her first full year as a Board member. Spoke about how enthusiastic and excited to be at Under the Oaks for the first time. It was a thrill to be there engaging with teachers and classified employees. Spoke about doing things in the summer to walk her talk. When she ran for the Board, she indicated that there were certain things that were her passion. One of those things was the Arts and the second is technology in the schools. Both areas the pedagogy of teaching has to come first, but then followed by ways art and tech can support that. Doing those things and having said that those things take money, they take extras, they take over and above some of the things that we provide in our District. She has been attending

many events to connect with people in the community. There is a saying in the marketing world that by the third point of contact for the same person, the same entity or the same organization that is when you can have an ask and actually say to somebody I met you three times, you come to the same events and I see you all the time so I would like to talk to you more about our District and the needs that our children and teachers have. Therefore, she has been laying the seeds and laying the groundwork for that by attending those events. It has been great to see that following the wave of Engage East Whittier that after talking to people in the community they are getting to know more about East Whittier. In the past she has felt they really didn't know who we were, they felt like they just knew Whittier City and Whittier Union but they didn't really know us that well. They are really excited about getting to know us better. It has been a pleasure this summer to have gone to some events that are connecting to our District, not only our local businesses but also State Senators and others who could in the future hopefully benefit the children here in the District.

#### Comments of Mrs. Chacon Kennedy

Mrs. Kennedy spoke about how well known our District is and the good reputation that we have. She is very proud of our District. This summer she has been very busy. She attended Under the Oaks. It was a real inspiration, and she really enjoyed being there. She also attended Congresswoman Linda Sanchez' speaking to the State of the Nation. Is looking forward to the year and attending all the Back to School nights to see all the great things going on. Mrs. Kennedy mentioned Mar Vista and how the site is looking and the concerns.

#### Comments of Mr. Aparicio

Absent

#### Comments of Mr. Elbling

Absent

#### Comments of Mr. Urteaga

Mr. Urteaga welcomed everyone back to the new school year. Appreciates being able to bring his boys to Ceres each year. Over the summer, it was nice to be able to see the social media updates with all the things going on at the school sites, specifically Ceres and Hillview and the work that has been done there with the Bond. Mr. Hernandez and Superintendent Patterson have really

been on top of it making sure that we are providing things to those two sites because those were targeted with technology. There is a lot of work going on in the summer time. It is exciting to see parents, students and staff come to enjoy those particular facilities. Hearing the plan tonight for everything else is exciting. It is the community's bond money at work really upgrading our school sites and the technology here in the District. Welcomed all new staff and our new Assistant Superintendent Dr. Vargas. Was not able to attend the New Teacher Welcome due to being back to work. Attended Under the Oaks and it was nice to see the themes, the colors or the school shirts, it has really grown. The sites were really proud taking pictures in front of the STEP and REPEAT. It will be nice to get to the Back to School nights and see everything that is happening in the classrooms.

### Comments of EWEA

Kelly Sunada, EWEA President welcomed everyone back. She spoke about the New Teacher lunch and thanked Melissa Torres for the beautiful job she had done. Spoke about the Under the Oaks and the great turn out. Spoke about the new year and the influx of registrations that Granada received last minute and the quick resolution with the hiring of 2 FTEs. She also spoke about the permit process and tracking for the schools to keep all the sites viable to maintain our status as a great place to come to school, work and to bring children. Spoke about the letters the staff received with several forms specifically the race and gender form and the concern the staff has for filling the form out. One concern is the form has anonymous on it but asks for the person's name, race and a signature and that the form does not have a box to check prefer not to state. Mentioned that she has been in contact with Dr. Vargas and had a nice ongoing conversation about the form. Spoke about the new Technology at Ceres and Hillview, asked about training, and if there would be training if staff wanted. Spoke about the Inter-Fund transfer resolution and how it does not have details about the amounts being transferred and the funds transferred from and too.

EWEA COMMENTS

### Comments of the Superintendent

Marc Patterson

Mr. Patterson spoke about all of the things that were done over the summer which led him to two different themes. One is the

SUPERINTENDENT COMMENTS

pride that we have in our District and the other is the engagement that we have across the District to be able to increase that sense of pride. Is really excited to see the improvements that we've done at Ceres and Leffingwell and even more excited to see what that looks like when we go for the whole shebang next summer, because then we will have a clear idea what this new project and this new delivery actually looks like when teachers walk into their essentially re-designed classrooms that are supposed to really be the model for what we are doing with the other 8 elementary schools moving forward. That does lead to conversations about the middle schools how they really are not incorporated and have not been since the conception of the bond other than the gyms and air conditioners and all of that. We really have to position ourselves for potentially going out in 2022 for an additional bond if we want to continue to follow that work. Is excited to see the Ceres and Hillview technology work, and like Kelly said really hearing what is working and not working, and doing the modifications that we do along the way. That is the beauty of it needing to be a 6-8 week rollout because we can kind of tweak some of the bugs and tweak some of the things that go along with that. Is thankful to Ivan and CSEA for all of the hard work in working with Dr. Vargas, because they really pulled off close to a miracle over the summer. The School Office Coordinators are ecstatic about having the Health Clerks there for almost the entire time that students are there because that is one of the things that is very nerve racking for a SOC and an SOA to be pulled away to possibly have to deal with a student who is insulin dependent or having to deal with some of those more medical needs. So, having that Health Clerk there is sometimes even more impactful than having the additional hours of the SOA because it would still be the SOA that would be pulled away for the Health Clerk. We really appreciate Ivan and the team for working through that and also working through the SOA situation trying to get those hours out there. We hit some bumps along the way but in the end, we think everyone is happy and the schools are happy so that is what it is all about, bringing more support to the school sites. We do have an item on the agenda about the IAs. In the long run after we weather this that is only a part of the attrition that we normally see in those positions with the IAs over a course of a year. We think this will bring more stability. So, once again we appreciate the association's work with that as well. With all the engagement, Under the Oaks was fun. Going to Wake Up Whittier to make those engagements, Senator Archuleta, Congresswoman Linda Sanchez, TTD and CTD was all exciting. We are excited to have

the next classified training day in November and see what that is like. Gabby, Dr. Vargas, Ivan, Michelle, and the team it was a great thing to pull off. The good news like Mrs. Sunada said is we are staving off declining enrollment. We would much rather have people come and enroll in June so we would have a better idea of what is going on but appreciates Dr. Vargas' quick attention to Justin's email to us saying what in the world is going on and not only did she look at the numbers and have that conversation and provide the FTEs they actually did hire and onboard them. They will be ready to go. That is nice to have that level of responsiveness to be ready off the bat to be able to not only allocate 2 FTEs without hemming and hawing but at the same time actually getting the interview going and the placements made. That was a great thing. On the opposite end, you will read in your memo Kindergarten numbers are not what we hoped they would be. We had a conversation, and we should be collapsing 4 Kindergarten classrooms because right now the averages in some of the classes are around 18 and 19 and while that is great to have small class sizes it is not something that we can support with our budget, but instead of making a drastic change like that because it will be a change and shock to culture to start transferring people this time of year and freak everybody out, we are going to kind of take our time and evaluate that, but we do have to be mindful moving forward if Kindergarten numbers don't come in, we will have to be willing to sacrifice that whole piece of being like other districts do and transfer people at this time of year which is not fun ever and we have been able to avoid it and we try all costs to avoid combos. East Whittier had 17 kids move in over the summer so it is a good problem to have they are just not coming in Kindergarten where we prefer to have them coming so that we keep them for 8 to 9 years. The kids moving in are attendance boundary zones not all permits.
