Use this checklist every morning before leaving for school. If your child is experiencing any of the below listed symptoms, please do not send them to school.

Parents must notify the school of their child’s absence and reason for absence prior to the start of the academic day. Please see the district website for each building’s absence reporting email link.

Students must be fever free and symptom free for 24 hours without the use of fever reducing medicine in order to return to school. If symptoms persist for more than 24 hours, please contact your child’s healthcare provider for evaluation and written clearance to return to school.

If your child is experiencing difficulty breathing or shortness of breath, you should seek immediate medical care.

**CLOSE CONTACT TO PERSON WITH COVID-19**
