

“Getting Our High School Results...”

by Tara Lago 8-2

The eighth's grade anticipation has been culminating since the beginning of all of this high school preparation. From the open houses to the shadow days and from the TACHS prep to the actual exam, everything we have done has come to this. January sixteenth is the pinnacle of our waiting, and with bated breaths, we and our parents will soon be opening high school acceptance letters. Once we are dismissed from school at 11:15 and once we arrive at our houses, we will open our mailboxes, and the letters inside seem to hold, well, our futures. Our definite choices are laid out in front of us, and now it is finally the time to decide which high school we want to go to. Will it be Farrell or Peter's? Or maybe Hill or Notre Dame? Will it be somewhere in Brooklyn or in Manhattan? Who knows? The answer lies in each eighth grader, and we all hope that the school we choose is the right one.
