

## **Projects to be Completed in Summer 2018**

### **HVAC**

This project includes installation of HVAC units in classroom buildings at the following sites: CCHS, CCMS, El Rincon ES and Farragut ES.

### **DW Public Announcement Upgrades**

This project is to add a campus wide PA system to keep everyone on campus informed.

### **CCHS Library Renovation (Mezzanine)**

This project will relocate the stacks to the mezzanine level and add 5 Study rooms and improve the circulation area.

### **CCHS Cafeteria**

This project is to relocate Food Services Offices within the existing lounge.

### **Linwood Howe HVAC Project**

This project is to add new HVAC to the two-story classroom building.

### **La Ballona “Maker Space” Classroom Tenant Improvements**

This project is to modernize a classroom building to be used as a maker space for future classes.

### **El Marino “Maker Space” Classroom Tenant Improvements**

This project is to modernize a classroom building to be used as a maker space for future classes.

## **Projects to be Completed in Summer 2019**

### **CCHS New Science Building**

This project will be a two story modular science building planned for joint use by the Middle School and the High School. The building will be abutting the lacrosse field, adjacent to the shared border of the Middle School and the High School. The project is planned with Chemistry Labs on the upper floor for the HS and Physical Science Labs on the ground floor for the MS.
