### Action Plan Steps

These are the Action Plan Steps identified in the plan to reach the goal.

- 1) Provide quality professional development including reading endorsement classes, math training, and instructional coaching.
- (2) Use paraprofessionals in language arts and math instructional times.
- (3) Employ a literacy facilitator, and other intervention/support staff to support achievement in reading, science and math.
- (4) Purchase math, reading, and science resources for effective instruction including online resources; this includes purchasing writing materials since writing development supports reading development.
- (5) Continue to build technology capabilities through improving infrastructure and by purchasing student devices, projectors and other technology-related products.
- (6) Assess students throughout the year to monitor progress and hold PLCs and data days for teachers to examine data and plan for student achievement.

This is how the action plan was implemented to reach this goal.

1. Reading endorsement classes were provided and instructional coaches were used to coach our teachers.
2. Paraprofessionals were hired for language arts and math instructional times in all grades.
3. A literacy facilitator and interventionist were hired to support achievement in reading and math.
4. A comprehensive language arts program was purchased for teachers in all grades.
5. Technology was not purchased this year.
6. Dibels Next software was purchased to support teachers as they assessed students and planned for student achievement.
