

STUDENT DATA SECURITY POLICY

The Wyoming Department of Education has released School District Data Security Guidelines to establish guidelines for school districts for the collection, access, privacy, security and use of student data by school districts. The District desires to generally implement and follow the guidelines as established by the Wyoming Department of Education and does hereby direct the School District Technology Supervisor to implement procedures to carry out the recommendations set forth in the recommended School District Data Security Guidelines referenced in Wyoming Department of Education Memorandum No. 2017-105 released September 25, 2017. The procedures can be located in the Technology Procedures and Guidelines Manual.

Adopted: January 9, 2018
