

MADISON COUNTY SCHOOL SYSTEM

Mr. Matthew Massey, Superintendent

2019-2020 School Year

Dear Parents:

Madison County School is endeavoring to offer the best education possible for your son or daughter. Course descriptions have been written which contain guidelines and prerequisites for all disciplines. Our teachers are very knowledgeable about the concepts that will be required for the next course in sequence. They are also familiar with their students' abilities and their willingness to work.

A student's success is contingent upon choosing appropriate courses based upon vocational goals, aptitude, and class performance. These things serve as the basis of our recommendations when scheduling your child for courses. If you find that you do not want to support our recommendations, we will abide by your decision. **By signing and returning this override form, you will be accepting full responsibility for allowing your child to enroll in a course for which he/she does not meet the appropriate requirements.**
