Breaking News

1st Trimester
Auction Coming Soon

This year you should save up your colonial cash because there are many great items and lots of classmates with a lot of money. Be on your best behavior and do your colonial cursive. You better hope Mrs. Walls calls you the wrong name. You need at least one cool item from the auction. Bid wisely. Remember to put your money to something you want most. This was breaking news by the Brookhaven 5th Grade Gate Newspaper and remember cash. save your colonial

It's hard to believe 1st trimester is over! One awesome assignment we have had this year is the volcano extension project in Mrs. Walls' class! We could have made a volcano and have it explode, made a poster, or choose from many other ideas. But, most people made a volcano to explode. Even though people used the same ingredients to explode their volcano, it didn't always work out. Everyone worked hard on their projects and it was awesome! I am sure a lot of people could agree that this was the best part of this trimester. In summary the volcano project was awesome!

I have loved this first trimester getting to know our teachers, and I can't believe it is already almost over! This first trimester, we will be having an auction tomorrow to celebrate the end of the trimester. Everyone has been saving their Colonial Cash to buy the auction items! We have also been learning some amazing facts with our outstanding teachers, Mrs. Walls and Ms. Tripp. Ms. Tripp will be teaching us about mixtures and solutions, plant organisms, the excretory system, and the planets. We also are learning cool new lessons with Ms. Tripp about math! Right now, we are learning how to subtract, add, and compare with decimals and fractions! This has been great first trimester!

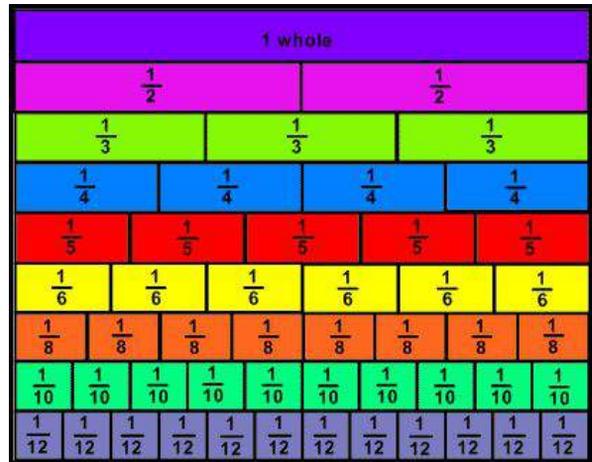

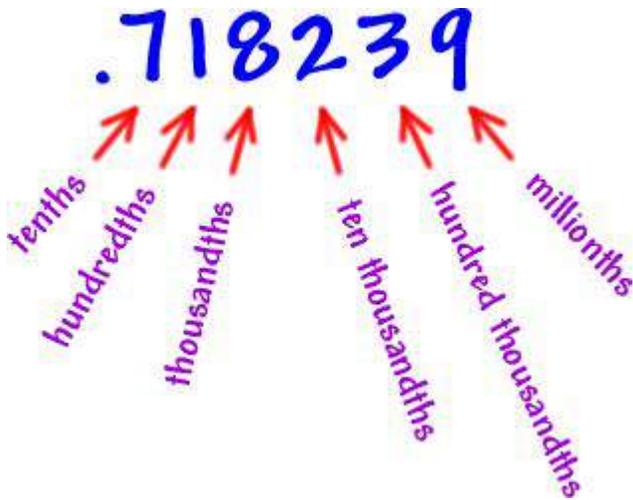

lets learn
about math

Math
BY: JUSTIN GUEST

Decimals and Fractions

In math, we are learning subtracting and adding fractions, estimation, and decimals. Math has been very challenging so far with many quizzes and one chapter test. Our entire class is doing really good, and I hope it continues throughout the year. In a lot of these lessons you either don't like it or you love it. Luckily for me, I have loved every single one of the lessons. Ms. Tripp has been a great teacher and has explained everything greatly. She is one of my favorite teachers that I have had. I'm hoping we all learn a lot this year in math and have a lot of fun along the way.

Jokes

By: Joel and Cole

Q: What's the difference between a TV and a newspaper?

A: Ever tried swatting a fly with a TV?

Q: Why do you go to bed every night?

A: Because the bed won't come to you!

Q: Why did the robber take a bath before he stole from the bank?

A: He wanted to make a clean getaway!

Q: What has four wheels and flies?

A: A garbage truck!

Q: What is it that even the most careful person overlooks?

A: Their nose!

Q: What is big and yellow and comes in the morning to brighten mom's day?

A: A school bus

Q: What has a head, a tail, is brown, and has no legs?

A: A penny

Q: I can slash but I have no knife, I can dash but I have no legs, I can pound but I have no hammer, I can star but I have no stage. What am I?

A: a keyboard

What's New

By: Ezra Ponce and Nick Steinmeyer

What's new? How about we start with the new laser tag place, Laser Island. They had the grand opening on October 7, 2016. This is the most fun new laser tag place this century! It is one of the best laser tag zones I have ever been to. It is not only for the laser tag, there are also many fun games in the building. They also have some of the best pizza ever! It is a fun place to just enjoy yourself with your family. Some say that it is the best place on Earth. Other people say it is out of this world! They also have a super high tech laser maze. That is what's new about Laser Island.

Science!

By Walker Andersen And Luke Owens
Mixtures Solution, and More!

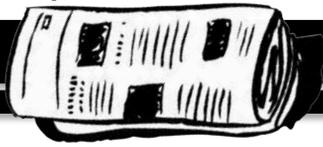

! WARNING
SCIENCE IN PROGRESS

This year in Mrs Tripp's class, we are going to have a great year in science! We are doing many amazing experiments such as evaporating salt solutions. The first subject we are learning about in science is mixtures and solutions. We will also be learning about the human body and how it works. We can all tell that Mrs. Tripp wants us to learn and, she is going to be a great teacher. We all want to learn and become better students. Learning all about the planets for the third time should be fun! We can't wait learn more about science!

Volcano Project

by: Ella Raasch

Our Volcano Project

Did you hear about our project? It is going to be awesome. We are doing this project because we are reading about volcanos. So fun! There might be volcanos, and there might be art. Let me tell you more about it. We were assigned to do a project. You could do a 3D model, an actual volcano that explodes, a movie, a trifold, and lot more. I can't wait! Can you?

Advice

By:Stephanie Duff

Beauty only
gets attention.
Personality is
what captures
the heart.

BEFORE YOU TALK, LISTEN.
BEFORE YOU REACT, THINK.
BEFORE YOU CRITICIZE, WAIT.
BEFORE YOU PRAY, FORGIVE.
BEFORE YOU QUIT, TRY.

If a kid is bullying you should not take it and you should not fire back, you should ignore them. Ignore them for about 2 days, if this does not work tell an adult near by. They will handle it.

Don't try to be someone else, be you and only you.

Don't let someone that gave up their dreams talk to you outgoing yours.

There is no elevator to your success you have to take the stairs to reach it.

Don't worry about the people who talk behind your back, there's a reason why they're behind you.

Please send me your problem and I will get back to you.

Send it to me with a fake name.
