(1) The proposal response will include the vendor's SPIN.

(2) By submitting a response, the vendor is signifying that the vendor is an eligible service provider for reimbursement.

Eligible ERate services requested with this RFP will include product and services contained in the USAC Eligible Services List, which can be found at

<https://www.usac.org/sl/applicants/beforeyoubegin/eligible-services-list.aspx>

16. INVOICING

If the vendor and district agree to the district filing the FCC Form 472 (Billed Entity Applicant Reimbursement (BEAR) Form), the district will pay the vendor in full for the services and the district will seek reimbursement from USAC for the discounted amount.

The district is always required to pay the non-discount portion of the costs for the services.

Invoices must be submitted no later than 120 days after the last day to receive service or 120 days after the FCC Form 486 Notification Letter date, whichever is later.

2. GENERAL

TISD will follow the purchasing policies of the TISD Board and requirements and procedures of the Schools and Libraries Universal Service to be eligible for all available funding.

The implementation of any associated contracts resulting from this competitive bid process will be dependent on the districts' issuance of a written Notice to Proceed. TISD requests a 10 Gb Ethernet Transport with 5 Gb bandwidth to a Internet Service Provider service point. Private TISD 10 Gb transport circuit from TISD router to the Internet port service with 5 Gb bandwidth provisioned with the ability to increase bandwidth in 1 Gb increments.

A Transport Service should be available FROM one or more of the following locations:

1. District NOC: 300 South 27th Street, Temple, TX 76504.
2. Temple High School 415 N 31st St, Temple, TX 76504.

A Transport Service should be available TO one or more of the following locations:

1. UT OTS Network Operations Center at the University main campus at 304 E. 24th St, Austin, TX
2. CyrusOne Austin Data Center II at 7301 Metropolis Drive, Bldg #6, Austin, TX.
3. Austin Data Foundry Data Center.
4. Alternative port service locations can be provided and will be considered.

The service will provide a 10 Gbps Transport Service with a Committed Data Rate (CDR) of 5 Gbps. The service provider should provide a description of the provider's transport service (Network).

The provider may provide a dedicated, rate limited service for the CDR or a burstable service. If providing a burstable service, the provider should provide a Service Level Agreement (SLA) for the service and the billing matrix for overage. TISD must have continual service.

The provider must provide appropriate technicians on site during the installation and/or have appropriate technicians available at the "home office" to support the installation.

To ensure E-Rate compliance, the district requests a scalable contract. The contract itself should include pricing for each additional service level from 5-10 Gbps and must allow TISD the ability to upgrade to any of those service levels during the term of the contract, without entering into a new contract.

The contract may reference an attachment with those pricing levels as long as the attachment is submitted at the same time as the contract (e.g. – "Service provider will allow upgrades during the term of this contract to any service level/price identified in Attachment A").

The proposal should include the features and benefits to the district but not limited to the following:

- Cost effectiveness
 - Unlimited data transfers
 - High quality service
 - Dedicated, non-oversubscribed transport
