

Commencing with the Class of 2020, Phillipsburg High School will compute two averages for students based on a 4.0 weighted scale. The first computation is a weighted average for all courses attempted which will be reported on all transcripts. The second is a weighted average that includes only those courses identified as ranked on page 6 of the 2017-2018 Course of Study to determine valedictorian, salutatorian and students with honors. The following is the GPA scale:
