INCLUSIVE PRACTICES

“The State of Inclusion in California: Examining the Best Practices Necessary to Increase Inclusive Education”

Presented By: Audri Gomez, Ph.D., Associate Director at the Thompson Policy Institute, Chapman University

This presentation will provide current research on the state of educational placements for students with disabilities across school districts in California. With decades of research demonstrating that all students perform better in general education classrooms, understanding the current landscape of educational placements forces us to see the importance of making inclusive education a priority. This presentation will also provide best practices to increase access to general education for all students.

Thursday, January 10th
6:00–8:00 PM

PYLUSD Professional Development Academy
4999 Casa Loma Avenue, Yorba Linda

Qualified Childcare & Spanish translation will be available for all.
