

Shopwithscrip.com user guide

This information page will assist you in gaining access and using shopwithscrip.com. If at any time you have any questions, please contact your Scrip coordinator at dcmascrip@yahoo.com.

Accessing your online account:

Option #1 - DCMA has set up an account for you at shopwithscrip.com. You can work with the program coordinator to gain access to your account. Go to www.shopwithscrip.com and login with the username and password set up with the coordinator. If no password has been established, you can use the 'forgot password' option and one will be sent to your registered email address.

Option #2 – You can set up your own account with shopwithscrip.com. You will need to contact the program coordinator with the enrollment code needed to attach your account to DCMA. There are important pieces of information that the coordinator must update to distribute the monies you earn so it is important that you work with them through this process.

The first time you log into the site, you will need to answer a couple of security questions. This is to ensure the security of your online account and information.

Setting up your Presto Pay Account:

Presto Pay is an option for paying for your online Scrip purchases. It is not required but it eliminates the need to get payment to the coordinator prior to the order being released.

Once you get logged onto the site, select the Presto Pay tab on the left side of the screen. You will need to provide your banking information for the account you wish to link to shopwithscrip.com. Once you have provided that information, two small deposits will be made into your account. Once you know the amount of those deposits, log back into the site and confirm what those deposit amounts were. After confirming the deposit amounts, you will be sent a four digit number that you must forward to the coordinator so that they can approve your account. DCMA assumes some responsibility for your online activity so we have to approve your account. For each Presto Pay transaction, you will be charged a 15 cent fee. That fee is for the entire transaction, not for each item ordered.

Ordering ScripNow!:

ScripNow! allows you to order scrip online, pay for it with Presto Pay, and receive it via email. ScripNow! can take up to an hour to process although it often processes much faster. Until you get familiar with the way the web page operates, please use caution to make certain you are ordering ScripNow! and not physical cards that have to be delivered to the coordinator. Once you place your order, you will receive an email notification when it is available. You will have to log back into the website to access and print your Scrip.

Ordering ReLoads:

Some cards can be reloaded on the shopwithscrip website. Log into the site and choose the ReLoad option from the retailer you wish to re-load. The first time, you will have to register your card with the website. You can register multiple cards from each retailer but the card has to have originally been purchased through the Scrip program. ReLoads require an overnight period. Any ReLoad transacted prior to the deadline established Monday through Thursday on the website will be available the next morning. ReLoads placed after the deadline on Thursday through the deadline on Monday will be available Tuesday morning. There are a limited number of retailers who offer a ReLoadNow! option. ReLoad now lets you reload a card and have the funds available within an hour.

Ordering Physical Cards for Delivery:

Any card available through the Scrip program can be ordered online, paid for with Presto Pay, and delivered through your coordinator. Any order placed by 7:30pm on Monday night will be available the following Monday at Scrip table.

At any time through this process you have any questions or problems, please contact your coordinator. They can help you through most issues and if not they can put you in touch with someone who can.
