

Saint Anne Weekly Bulletin

Week of August 27, 2018

Dear Parents,

WELCOME BACK! We are incredibly excited to begin this new school year! It will be a year full of new opportunities for our students:

New Math Series
New Chrome Books
New Teachers
Outdoor Education Camp, Grades 6-8
New Preschool/TK Play Equipment

This will be a year of engaging and meaningful work in our classrooms with an emphasis on **STEM: Science, Technology, Engineering, and Mathematics**. Teachers will be receiving inservices with the help of ListoAmerica, an affiliate of MIT University. Additionally, teachers will create STEM projects each month for students using the science lab materials, including robotics.

Our lower grade teachers are also involved in a **Blended Learning Fellowship** to provide guided training on how to best utilize technology to support differentiation and support student learning. It will include group work, use of technology, and new teaching strategies.

The **THEME for this year is TEAM:** Together Everyone Achieves More. Students will be learning more about this in the days ahead. Again, we welcome you to a positive and productive year together, walking with Jesus and Mary.

Here are the dates to remember:
